The COVID-19 pandemic in the last two years has influenced how educational system works. Online learning became the primal policy taken by all institutions in the world to lower the risk of the virus spread. Despite the drawbacks of the online learning, teachers and students were accustomed with the distant learning through web meetings. Learning Management Systems (LMS) and other online learning platforms. In that time, topics under digital learning and education 5.0 were the main stakes in academic disseminations. This year, some institutions start to conduct their teaching and learning process classically as before the pandemic, others are still continuing online, and not few are in hybrid. This leaves a question: what learning reform should be made in post-pandemic era? This conference invites researchers, experts, teachers, and students to discuss the coping solutions of the question. It is important for them to contribute to the understanding of re-imaging online education for better futures: innovative learning design, new skills for living and working in new times, global challenge of education, learning and teaching with blended learning, flipped learning, integrating life skills for students in the curriculum, developing educators for the future, distance learning, humanities learning in the digital era, assessment and measurement in education, challenges and transformations in education technology, in teaching and learning, new learning and teaching models. Not limited to these, scholars may add another interesting topic.
