Social Media in Sport Marketing Timothy Newman, Jason Peck, Brendan Wilhide, 2017-01-08 From the Preface Not surprisingly companies of all sizes are using social media as part of their marketing and public relations efforts The growth of the social media phenomenon and constant advances in technology obviously create unique and powerful opportunities for those able to capitalize on them The question is how best to do so Social Media in Sport Marketing has been created to help answer this question as it pertains to sport organizations Written from the perspective of sport professionals this brief but thorough text explores the concepts tools and issues surrounding social media and marketing with reader friendly examples and applications specifically from the world of sports The authors connect industry specific content with current trends in social media and provide readers with a balance between theory and experience Instructors and students can use the book as a primary resource for teaching and learning about traditional sport marketing public relations principles as they relate to social media Instructors will appreciate the inclusion of case studies which can be used to generate discussions students will benefit from the numerous examples The book can also serve as a guidebook for those who want to put ideas into action immediately The experienced author team includes a sport marketing professor as well as practitioners involved in social media project management and development

Understanding Selfies Piotr Sorokowski, Katarzyna Pisanski, Agnieszka Sorokowska, Nicola Bruno, 2018-04-27 In the year 2013 selfie was named word of the year by Oxford Dictionaries in recognition of dramatic changes in frequency prominence and register of the term This drastic increase in selfie taking was spurred by two factors The first was the advent of smartphones equipped with front cameras and preview screens that made it easy to compose a photographic self portrait by a process of deliberately exploring one s image choosing a pose and finally taking the picture The second key change contributing to the rise of the selfie age was the increasing availability of internet connections It is estimated that about 50% of the world population has access to the internet today 2018 <https://www.internetworldstats.com> At the end of the past century this percentage was a mere 1% The growth of the internet infrastructure simultaneously spurred the development of social network applications such as Facebook Twitter Snapchat and Instagram providing accessible media for sharing photographs including photographic self portraits However despite their tremendous reach and popularity selfies have so far received relatively little attention by the scientific community especially within psychology Thus we proposed a *Frontiers in Psychology Research Topic* to expand empirical and theoretical work on the massively popular yet scientifically unexplored phenomenon of the selfie The articles published in this eBook offer a multifaceted insight into current scholarly work on this topic

ECSM2016-Proceedings of the 3rd European Conference on Social Media Christine Bernadas, Delphine Minchella, 2016-06-21 **EPublishing with InDesign CS6** Pariah S.
