Business and It's Environment Baron,1996 **Corporate Social Entrepreneurship** Christine A.

Hemingway,2013-05-23 Business ethics teaching appears to have had little impact particularly in the light of continued malpractice and misdemeanour in the form of financial scandals environmental disasters and adverse consequences for communities This timely book directly addresses a central question is it that the existence of an ethical or an unethical climate influences behaviour or does the presence or absence of a moral character and personal values have the greatest influence on behaviour at work Hemingway proposes four modes of individual moral commitment to corporate social

responsibility CSR and sustainability the Active Corporate Social Entrepreneur the Concealed Corporate Social Entrepreneur the Conformist and the Disassociated Hemingway posits that the Conformists represent the majority of people in organisations adhering to the prevailing ethical climate whatever that might be However it is the discovery of the corporate social entrepreneur which offers students and scholars a critical alternative and optimistic perspective for the future of ethical business

Business Power and Conflict in International Environmental Politics Robert Falkner, 2008 Robert

Falkner's excellent book addresses a vitally important topic on which the literature is relatively under developed. His approach is radically different and directly engages existing explanations of the role of business in global environmental politics. This will certainly mean its appearance on reading lists. John Vogler, Professor of International relations, Keele University, UK. Falkner's contribution is to demonstrate how accounts of the considerable power and influence of business can remain strongly sensitive to the varied nature of business interests and the particularity of the political circumstances with which they are inevitably enmeshed. Dan Greenwood, *International Affairs*

Journal of Policy Analysis and Management, 1994. Encompasses issues and practices in policy analysis and public management. Listed among the contributors are economists, public managers and operations researchers. Featured regularly are book reviews and a department devoted to discussing ideas and issues of importance to practitioners, researchers and academics.

Strategy and the Business Landscape Pankaj Ghemawat, 2010. This business strategy text helps students master a body of analytical tools and develop an integrative point of view when making strategic choices. It focuses on strategies that offer the greatest potential for improving business performance.
