It is based on recent and emerging developments in the transnational nursing community and establishes through the writings of esteemed global health and nursing scholars a holistic dialogue about opportunities for nurses to expand their roles as change agents and leaders in the cross-cultural and global context. The personal reflections of contributors animate such topics as global health ethics, the role of caring in a sustainable world, creating a shared humanity, cultural humility and many others. **Key Features:** Examines for the first time nursing's role in each of the 17 SDGs; Integrates international initiatives delineating nursing's role in the future of global health; Creates opportunities for nurses to redefine their contributions to global health; Includes personal reflections to broaden perspectives and invite transnational approaches to professional development; Distills short, practical and evidence-based chapters describing global opportunities for nurses in practice, education and research. **The World-Making Power of New Media** Barrie Axford, 2017-09-22 In this new work, Axford seeks to contribute to the development of global theory, particularly where
