**Forthcoming Books** Rose Arny, 2003      **Synergies Created by a Strategic Fit between Business and Human  
Resource Strategies** Wilson J. Osito Odiyo, 2013-07-26 This text is an important addition to the ongoing discourse on  
strategic management particularly strategic human resource management It is a result of research carried out in the  
agricultural sector in general and on multinational tea firms in particular The author s hands on and conceptual insights  
gained through nineteen years of experience across African countries make the text a useful tool for company boards of  
directors and strategic level managers charged with the formulation and implementation of business and human resource  
strategies In addition it provides justification to HR managers of the need to shift focus from primarily being concerned with

routine transactional HR activities to dealing with transformational ones which are contingent on the circumstances of the organization. Scholars, management consultants and management students will also find the contents of this book to be of great interest and benefit. It is now sufficiently recognised that management has to be concerned with deliverables rather than abstractions. Therefore many firms formulate and implement one form of business strategy or the other. However strategies cannot be conceived let alone realised without human resource input. The question that HR continues to grapple with therefore is how it can demonstrate the contribution of each employee to the bottom line and business sustainability. How this question is to be answered has not always been explained and is even more crucial for the agricultural firms which are characterized by great instability in terms of weather patterns, commodity prices, currency exchange rates and wage levels. HR planning in these circumstances cannot be a simple exercise but getting it right is more important than for organizations in more predictable environments. This book moves away from the romanticization of the role of HRM in such organizations and instead provides empirical evidence of the types of business and human resource strategies employed, strategic integration between these strategies and the strategic human resource management processes and practices used. Finally it considers the concomitant synergies achieved by strategic fit between business and human resource strategies and their role in achieving sustainable competitive advantage.

EBOOK: Principles and Practice of Marketing, 9e David Jobber, Fiona Ellis-Chadwick, 2019-08-01

EBOOK Principles and Practice of Marketing 9e Essential Business Skills for Social Work Managers Andrew J. Germak, 2014-11-13

Many social workers find themselves in management positions within a few years of graduating from MSW programs. Most of these jobs are in nonprofit human service organizations in which increasingly business acumen is necessary to maintain grants and donations, start new programs, market services to clients, supervise the finance function and understand the external environment. This book teaches MSW students and early stage social work management practitioners the essential business skills needed to manage programs and organizations to improve their overall management toolkit for finding a better job or getting promoted and ultimately to gain parity with other managers holding MBA degrees and working in the human service space. This text can serve as a desk reference for managers to troubleshoot various situations. It is also appropriate for social work macro practice courses at the undergraduate and graduate levels as well as courses that cover human resource management and financial management.
