*Putin's Sledgehammer* Candace Rondeaux, 2025-05-13 The astonishing inside story of the Wagner Group the world's deadliest militia In June 2023 the Wagner Group assembled an armed convoy that included tanks and rocket launchers and set out on what seemed like a journey to take control of Moscow The last person to attempt such a venture was Adolf Hitler Wagner's power began from patronage then grew from international theft and extortion until it was so great it exposed the weakness of Russia's conventional military and became a threat to the Russian state one that was not demonstrably eliminated until a private jet containing Wagner's core commanders was blown up in midair That Yevgeny Prigozhin a local criminal thug was able to build a private army that was on the threshold of overwhelming the world's second largest country seems incredible In fact it was inevitable following the hollowing out of the Russian military the creeping use of contract groups for murky foreign missions power struggles inside the Kremlin and the ability of the new militias to corner and exploit the black economy Told with unique inside sourcing and expertise Putin's Sledgehammer is a gripping and terrifying account of a superpower that contracted its soul to a pitiless militia *Ukraine and the Empire of Capital* Yuliya

Yurchenko, 2017-12-20 Since 1991 nominally independent Ukraine has been in turmoil with the Orange Revolution and the Maidan protests marking its most critical moments Now its borders are threatened and the civil unrest and armed conflict continue to destabilise the country In order to understand these dramatic events Yuliya Yurchenko looks to the country's post Soviet past in this ambitious analysis of contemporary Ukrainian political economy Providing distinctive and unexplored reflections on the origins of the conflict Yurchenko unpacks the four central myths that underlie Ukraine's post Soviet reality the myth of transition the myth of democracy the myth of two Ukraines and the myth of the other In doing so she sheds light on the current intensification of class rivalries in Ukraine the kleptocracy resource wars and analyses existing and potential dangers of the rightwing shift in Ukraine's polity stressing a historic opportunity for change Critiquing the concept of Ukraine as transition space she provides a sweeping analysis which includes the wider neoliberal restructuring of global political economy since the 1970s with particular focus on Ukraine's relations with the US the EU and Russia This is a book for those wanting to understand the current conflict as a dangerous product of neoliberalism of the empire of capital
