Rankings and the Reshaping of Higher Education Ellen Hazelkorn, 2015-03-23 University rankings have gained popularity around the world and are now a significant factor shaping reputation. This second edition updates Ellen Hazelkorn's first comprehensive study of rankings from a global perspective drawing in new original research and extensive analysis. It is essential reading for policymakers, managers and scholars.

**TERI Energy & Environment Data Diary and Yearbook (TEDDY) 2015/16**, 2016-03-15 TERI Energy Environment Data Diary and Yearbook TEDDY is an annual publication brought out by The Energy and Resources Institute TERI since 1986. It is the only comprehensive energy and environment yearbook in India which provides updated information on the energy supply sectors: coal and lignite, petroleum and natural gas, power and renewable energy sources, energy demand sectors: agriculture, industry, transport, residential and commercial sectors, and environment, local and global. The publication also provides a review of the government policies that have implications for these sectors of the Indian economy. Each edition of TEDDY contains India's commercial energy balances for the last four years that provide comprehensive information on energy flows within different sectors of the economy and how they have been changing over time. These energy balances and conversion factors are a valuable ready reckoner for researchers, scholars and organizations working on energy and related sectors. After the introductory chapters for the ease of readers, TEDDY has been divided into sections on energy supply, energy demand and local and global environment. The thirtieth edition of the publication TEDDY 2015/16 comes with several interesting features. The Green Focus at the end of each chapter highlights sustainable initiatives and successful practices which are of current interest in the sectors discussed under the sections on energy supply, energy demand and local and global environment. The publication also features a section that discusses sustainable development goals and air pollution and health. Interactive graphs, figures, maps and tables have been used throughout the chapters to explain facts which make the book an interesting read. In addition, detailed tables at the end of each chapter represent statistical data on each of the above mentioned sectors. The publication is accompanied by a complimentary CD containing full text. The publication has more than 15,000 readers across the globe and is often cited in international peer-reviewed journals and policy documents.

**Key Features:** Exhaustive compilation of data from energy supply and demand sectors. Recent data along with data for the past years presented in the form of structured and easy to understand tables. Recent advances made in the energy sectors are covered in the book. Self-explanatory figures and graphs showing the latest trends in various sectors are also part of chapters. The Green focus section in every chapter highlights a topical issue. The book comes with a complimentary CD that contains all the chapters and additional tables.

**Contents:** Energy and environment: an overview. Commercial energy balance tables and conversion factors. Energy supply: Coal and lignite, Petroleum and natural gas, Power, Renewable energy sources and technologies. Energy demand: Agriculture, Industry, Transport, Household energy.
