Arif and Rohit are childhood friends. Though they come from different religious background but there is very good understanding between them . After completing MBA both decided to take care of the friendship a step further and become business partners. They decided to start a wire manufacturing business . They know that the factory of wire manufacturing pollutes the environment. They are contemplating on two options . First option is to established the factory in rural area. The poor and illiterate local residents will not be aware of the adverse effects of pollution and thus Arif and Rohit can manufacture wire at low cost of production. Second option is to install an advanced pollution control plant in their factory to control the pollution by avoiding bat smoky chimneys and fulfill their social responsibility . But it will require additional cost of Rs. 1,35,000 and increase the cost of production. After lot of thinking both friends choose the second option and decided to set up their factory in the rural area with advance to pollution control plant.

The Impact of Plain Language on Legal English in the United Kingdom Christopher Williams, 2022-08-23 This volume offers insights into the ways in which plain language has influenced the language of the law in the United Kingdom, critically reflecting on its historical development and future directions. The book opens with an overview of the theoretical frameworks underpinning plain language and a brief history of plain language initiatives as a foundation from which to outline ongoing debates on the opportunities and challenges of using plain language in the legal domain. The volume details strands where plain language has had considerable impact thus far on legal English in the UK, notably in legislative drafting, but it also explores areas in which plain language has made fewer inroads, such as the language of court judgments and that of online terms and conditions. The book looks ahead to unpack highly topical areas within the plain language debate, including the question of design and visualisation and the ramifications of digitalisation, contributing to ongoing conversations on the importance of plain language both in the UK and beyond. This book will be of particular interest to students and scholars interested in the intersection of language and the law, as well as related disciplinary areas such as applied linguistics and English for Specific Purposes.

Women, Gender, Remittances and Development in the Global South Ton van Naerssen, Lothar Smith, Marianne

H. Marchand, 2016-03-09 This book endeavours to take the conceptualisation of the relationship between transnational remittance exchanges and gender to a new level. Thus inevitably it provides a number of case studies of relationships between gender and remittances from around the world highlighting different processes and practises. Thereby the authors seek to understand the impact of remittances on gender and gender relations both at the sending as well as at the receiving end. For each case study authors ask how remittances affect gender identities and relationships but also vice versa. By itself this already adds a wealth of insights to a field that is remarkably understudied despite a volume of studies on gender and the feminization of migration in developing contexts. Chapters take an open explorative approach to the relationship between gender and remittance behaviour with the aid of case studies focusing on transnational flows between migrants and countries of origin. With the wide variety of cases this book is able to provide conceptual insights to better understand how remittances affect gender identity roles and relations at both the receiving and sending end and give specific attention to the roles of various actors directly and indirectly involved in remittance sending in current collectively organized remittance schemes from around the world.

Sino-Pakistani Relations Filippo Boni, 2019-08-08 This book analyses the relationship between Pakistan and China in the post 9/11 period against the backdrop of Pakistan's domestic politics and proposes that the major source of continuity in the ties between the two countries is represented by the military. The evolution and continuity of Sino-Pakistani relations are explored through three timely case studies: the port of Gwadar where Chinese investment well pre-dates the advent of the Belt and Road Initiative; the China-Pakistan Economic Corridor, the flagship project of China's global ambitions; and how the relationship between China and Pakistan has played out in Afghanistan. The book assesses the extent of military influence in Pakistan's relations with China throughout the last 20 years in several key decision-making areas ranging from internal security to elite recruitment. By looking at the extent of military prerogatives in Pakistan's domestic politics, the book reveals how the major source of continuity in the ties between the two countries was represented by the role that the military has played overtime. While since the announcement of the BRI, elected representatives have gained some leverage in decision-making, the military has invariably been the main port of call even under a civilian dispensation. A novel approach to the study of Sino-Pakistani relations, this book will be of interest to academics working on South Asian Politics, Chinese Politics and International Relations. Sino-Pakistani relations, civil-military ties and China's role in Asia including the One Belt One Road initiative.

Borderless Africa Francis Mangeni, Andrew Mold, 2024-04-18 The African Continental Free Trade Area established in 2018 represented a monumental step forward for Africa in terms of meeting longstanding aspirations for greater economic and political integration. But it has nonetheless been met with scepticism in some quarters both within the continent and beyond. *Borderless Africa* makes the case for the AfCFTA in an accessible and compelling way without shying away from technical and academic debates. Francis Mangeni and Andrew Mold take us on a journey through the different dimensions and implications of the AfCFTA, the largest free trade zone in the

world starting with its underlying economic rationale Pointing to the numerous historical examples of successful regional integration they argue that the African continent will need to take on board such lessons as the agreement is implemented They discuss too the more controversial elements of the AfCFTA including the freedom of movement protocol contending that this should not be seen as an optional extra but as an intrinsic part of the accord Also exploring the role of external partners in the construction of an economically stronger more united Africa this fascinating study reveals how the AfCFTA is contributing to sustainable development across the continent **Parliamentary Debates (Hansard)**.
