This is what The Business Leader's Handbook Series is about. We have developed an approach with a set of tools and defined skills, information, resources, training, and mentoring that we use to build, manage, and lead our own successful businesses. We are now making our approach and tools public and available to you in our Handbook Series. The contents of leadership Basics come from The Business Leader's Handbook Series. It is meant to refresh your memory on the fundamentals of business leadership: Thinking (Your mental approach), Acting (The role you play and the characteristics you adopt), and Doing (The actions you take, the results you deliver, and the methods you use). These three fundamentals form our Leadership Model, a framework of knowledge and skills that help you lead successfully at each stage of business growth. The Business Leader's Handbook Series was developed by Vecker Labs. We are interested in hearing how you are using our materials to build your business. We also want input from you on what additional tools, information, training, and resources you need. Please contact us at [info@vecker.com](mailto:info@vecker.com) to begin the conversation.

*The Little Book of Business Wisdom* Peter Krass, 2001. Pearls from THE LITTLE BOOK OF BUSINESS WISDOM: The man who starts out simply with the idea of getting rich won't succeed; you must have a larger ambition. JOHN D. ROCKEFELLER: Think about the customer, not the competition. Competitors represent your industry's past; as over the years, collective habits become ingrained. Customers are your future, representing new opportunities, ideas, and avenues for growth. MICHAEL S. DELL: You've got to be out in front of crowds, repeating yourself over and over again, never changing your message, no matter how much it bores you. JACK WELCH: Always break orders to save owners. There never was a great character who did not sometimes smash the routine regulations and make new ones for himself. ANDREW CARNEGIE: Don't speak up at a meeting until you have something meaningful to contribute. Talking to attract attention may call attention to your blank spots. JO FOXWORTH: Make 'em feel guilty when they do nothing. One thing I can't stand is people who don't act on a situation. I'd rather that people make mistakes than sit around and not do something. DAVE THOMAS

*HBR's 10 Must Reads on Leadership* Harvard Business Review, 2011. Business **True North Business** Bobby Albert, 2019-02-05. Googling and guessing are not good leadership strategies. Another landmark leadership book by Bobby Albert, *True North Business* provides the compass and roadmap required for the journey to meaningful success. Let's face it: the marketplace is more competitive and bewildering than ever. Leaders need a proven way to confidently chart their path and lead their people. In *True North Business*, Bobby presents the True North principles that equip today's leaders to create their True North Compass, a rock-solid reference that allows them to authentically lead with confidence. Readers discover the problem that threatens every leader and a simple process to avoid it, along with ways to make better decisions and stimulate the growth they've always dreamed of.

*Leading with Wisdom* Peter Pruzan, 2017. Many business executives are increasingly becoming workaholic human doings, longing to be full and integrated human beings. They aspire to live with integrity, where their thoughts, values, words, and deeds are in harmony. The problem is that they don't know how to do so in a business world that is increasingly characterised by complexity, turbulence, and greed. *Leading with Wisdom* provides food for

thought for people dealing with these challenges It contains stories and reflections of 31 inspiring and compassionate business leaders who care about what is truly important in life and who integrate this awareness and sensitivity into their leadership Leaders who search for meaning purpose and fulfilment both in the external world of business and in the internal world of consciousness and conscience Leaders whose leadership is a natural expression of their hearts minds and souls In other words leaders who lead from a spiritual basis Such perspectives on leadership are not yet mainstream Greed prestige and power appear to still be prime motivating forces for leaders of the world's larger corporations In spite of 25 years of globalisation poverty is still devastatingly ubiquitous in many parts of the world In striking contrast the compensation packages of top leaders in business particularly in the West have skyrocketed reaching levels that would have been considered impossible only a decade ago What is clearly needed is a change in the mind set values and principles of our leaders as well as of those who finance our enterprises and of those who teach and mentor our future leaders At the very minimum what is needed is an expansion of the concept of success so that it transcends the prevailing myopic focus on short term financial gains It can be argued that this rampant greed is gradually being tamed not just by laws but also by social and ethical norms In the last two decades there has been an amazing and uplifting focus on such perspectives as business ethics corporate social responsibility and sustainability But when leaders are questioned as to why they and their organisations should promote this new and expanded sensitivity to corporate responsibility their default answer typically is that it is profitable an efficacious means to promote classical business ends of increasing earnings and share prices But how and why should such an expanded concept of leadership develop What should provide the motivation for our leaders to find their way in an increasingly complex business world by using a compass that points not only to a pot of gold but also to a path to deeper meaning and purpose in business This book does not provide answers in the form of proposals as to new rules or laws or moral injunctions Rather it provides a collage of perspectives in the form of stories of highly respected and successful executives who have integrated their spiritual search into their leadership so as to be whole people leaders whose thoughts words and deeds are in harmony with their most fundamental truths and longings both at work and in their private lives These stories tell of an emerging culture where business becomes a primary domain for both individual and organisational spiritual growth Leading with Wisdom Spiritual Based Leadership in Business portrays an emerging global culture This ground breaking book offers the experiences and perspectives of 31 top executives from 15 countries in 6 continents It is based on extensive personal interviews These are business people who express from first hand experience what it is like to lead a business from a spiritual basis They tell amazing down to earth real life stories about how spirituality and rationality can go hand in hand in leadership and life Their words of wisdom demonstrate that executives who lead from a spiritual basis can achieve success recognition peace of mind and happiness while at the same time serving the needs of all those affected by their leadership Written in an engaging style where the special voice of each leader is heard this book will be profoundly

valuable to business leaders at every level and for all people who want to lead with integrity from a spiritual basis Provided by publisher *Lessons From the Top* Thomas J. Neff,1999 **Developing the Leader Within You** John C.
