Programming for Adults Raymond Ranier, 2005 As the mission statements of libraries across the nation change to reflect the realities of post liberal America and its emphasis on economic values librarians have had to pick up their long standing paradigm and move it in an endless shuffle from knowledge stewardship to information broker to entertainment director Many library boards have made it clear that the public library especially in smaller communities can earn its keep only by becoming the center of educational informational and entertainment possibilities for their taxpayers This has necessitated a ten year learning curve unprecedented in professional life Few librarians even those being schooled today in our graduate schools are prepared to shift into high gear when it comes to conceptualizing planning paying for and evaluating public programs for their patrons Unlike its predecessors that leave ideas for public programming to the imagination Programming for Adults lists ideas names names and messages the already fertile librarian imagination to the challenge and creativity inherent in adult programming Legal issues are discussed possible pitfalls are flagged and evaluative follow ups are suggested The advice put forth in this book can help you put on your show to the satisfaction of your boss and more importantly to the accolades of your public *Driver Training for Rural and Paratransit Providers* Jo Pebworth, 1989

leaked by Edward Snowden sparked widespread debate about secret government surveillance of Americans Just over a year later the shooting of Michael Brown a black teenager in Ferguson Missouri set off protests and triggered concern about militarization and discriminatory policing In *Unwarranted* Barry Friedman argues that these two seemingly disparate events are connected and that the problem is not so much the policing agencies as it is the rest of us We allow these agencies to operate in secret and to decide how to police us rather than calling the shots ourselves The courts have let us down entirely *Unwarranted* is filled with stories of ordinary people whose lives were sundered by policing gone awry Driven by technology policing has changed dramatically from cops seeking out bad guys to mass surveillance of all of society backed by an increasingly militarized capability Friedman captures this new eerie environment in which CCTV location tracking and predictive policing has made us all suspects while proliferating SWAT teams and increased use of force puts everyone at risk Police play an indispensable role in our society But left under regulated by us and unchecked by the courts our lives liberties and property are at peril *Unwarranted* is a vital timely intervention in debates about policing a call to take responsibility for governing those who govern us
