of the Batch----- Projects of  
Integrated Watershed Management Programme (IWMP)**

**1.0 Introduction**

------(State name) is the one of the State in the country implementing the Integrated Watershed Management Programme (IWMP) of Government of India (GoI) since 2009-10.

Currently four batches of projects are under implementation under IWMP. The implementation is on the lines of the Revised Common Guidelines for Watershed Development Projects-2011, issued by the Government of India (GoI). NGOs play a major role as facilitators of implementation and are involved in creating awareness about the project and capacity building of community based organisations formed under IWMP.

Presently the implementation of projects under III Batch sanctioned during 2011-12 is in the Preparatory Phase. Besides, Under Batch-IV also, projects have been sanctioned during 2012-13 and the implementation of these projects is likely to start soon. **The project period under both batches is a maximum of 4-7 years as stipulated by GoI.**

It is desired that an external MEL &D system for both III and IV batches of IWMP projects is in place at the earliest. The Batch-III projects cover an estimated area----- lakh Ha and are distributed in -----districts of the State. The Batch-IV projects covering an area of 3.32 lakh Ha are also distributed in \_\_\_\_\_districts of the State. The Revenue Division-wise details of projects are given in Annexure IA.

The MEL&D work in Batch-III projects will commence from the date of signing of agreements with the selected agencies & Batch IV.

The treatable areas given in Annexure IA and Annexure IB are likely to vary by 10-15%, and the exact extent will be known only after the completion of Net Planning process of these projects.

**2.1 Major objectives of IWMP**

The Integrated Watershed Management Programme (IWMP) is one of the flagship programmes of the Govt. of India and is being implemented by the Department of Land Resources (DoLR) in all states of the country having an outlay of around Rs. 29,000 Crores for the 12th Plan. The programme envisages restoring the ecological balance by harnessing, conserving and developing degraded natural resources such as soil, vegetative cover & water through watershed management initiatives. The objectives otherwise can be stated as-

- i. Increase the productive potential of degraded lands through various watershed interventions.
- ii. Improve the biomass through Agro-Horticulture, Agro-Forestry and Silvi-Pastoral systems.

TERI Energy & Environment Data Diary and Yearbook (TEDDY) 2020/21

TERI, TERI Energy Environment Data Diary and Yearbook TEDDY is an annual publication brought out by TERI since 1986. It is the only comprehensive energy and environment yearbook in India that provides updated information on the energy supply sectors: coal and lignite, petroleum and natural gas, power and renewable energy, sources, energy demand sectors: agriculture, industry, transport, household, buildings, and environment, local and global. Recent changes in the energy sector and environment are depicted with the help of graphs, figures, maps, and tables. The publication also reviews government policies associated with energy and environment. TEDDY 2020-21 gives an account of India's commercial energy balances extensively covering energy flows within different sectors of the economy and how they have been changing over time. These energy balances and conversion factors are a valuable reference for researchers, scholars, and organizations engaged in energy and related sectors. Contents of the book are organized into three sections: Energy Supply, Energy Demand, and Local and Global Environment. Interlinkage of SDGs with energy and environment also forms the subject matter of TEDDY 2020-21. The thirty-sixth edition continues to remain less prose-intensive with inclusion of more data represented with the help of infographics, thus making the publication an authentic and interesting read.

**Key Features:** Provides a review of government policies, programmes, and initiatives that have implications for the petroleum and natural gas sector and the Indian economy.
