**Youth-centered Counseling for HIV/STI Prevention and Promotion of Sexual and Reproductive Health** Alex Peter Vega, 2005

This guide for youth-centered counseling is a tool developed to assist frontline providers in reaching young people and effectively promoting sexual health in Latin America and the Caribbean. It has been developed by the Child and Adolescent Health and HIV/AIDS Units, Family and Community Health Area, PAHO/WHO to assist in reaching young people and effectively promoting sexual health. It contains detailed and theory-based actions and methods to improve the quality of services for young people. Youth-centered counseling to be effective must respond to young people's individual sexual behavior context and developmental stage. While the book includes guideline strategies and the theoretical underpinnings guiding the practice of counseling, the accompanying CD provides an additional practical tool.
