,2005 Price Statistics Compilation in 196 Economies: The Relevance for Policy Analysis Francien Berry,Brian Graf,Mr.Michael Stanger,Mari Ylä-Jarkko,2019-07-26 The consumer price index CPI is a key economic indicator used to gauge inflation adjust wages pensions and social benefits The producer prices index PPI is used for forecasting and deflating GDP estimates Both indexes are used by the Fund policymakers and researchers for global regional and domestic surveillance In this context the paper evaluates the soundness of the indexes by assessing four major criteria frequency of updating the weights the index coverage timeliness and the use of international classifications We discuss online and scanner data as frontier issues The study shows that the CPI is universally and frequently compiled timely and fairly well aligned with international standards However the weights used to compile the index are updated in only 45 percent of economies and have national coverage in 76 percent PPIs compiled by only 126 economies are timely but there is scope for continued improvement as only 36 percent of economies have updated PPI weights and approximately 67 percent maintain the recommended coverage Outdated weights impact the reliability of the indexes for policy analysis Frequently updated weights and well represented coverage mitigate against biases and ensure that the indexes properly measure the price evolution in the economy **International Labour Review** ,2004 *Guidelines on Integrated Economic Statistics* ,2013 The motivating source of developing guidance for the operational use of an integrated approach to economic statistics in national statistical programmes has been the benefits of integrated economic statistics for nationally and internationally coordinated economic policy The methodological and practical guidelines in this publication respond to the recognised need for an integrated approach to increase the coherence and consistency of basic economic statistics for enhancing the quality and analytical value of both basic economic statistics and macroeconomic statistics The Guidelines build upon international standards manuals by describing principles and detailed practices for further increasing the consistency and coherence of economic data within countries over time and across countries **Study on Short-term Economic Indicators for the Arab Region** Nations Unies. Commission économique et sociale pour l'Asie occidentale,2013 The purpose of this publication is to outline international statistical guidelines and standards for use by national statistical agencies in the Arab region for the production and dissemination of a proposed core set of priority short term economic indicators of appropriate quality and timeliness together with their related metadata Guidelines contain recommendations on key methodological issues that impact various dimensions of the quality of those indicators including their periodicity timeliness accessibility accuracy and coherence The report also offers guidelines on the provision of methodological information metadata by national agencies The overall aim of this publication is to help national agencies develop the capacity to compile priority short term and other economic indicators in accordance with existing international statistical standards and recommended practice Page vii

Core Inflation Measures and Statistical Issues in Choosing Among Them Mick Silver,2006-04 This paper provides an overview of statistical measurement issues relating to alternative measures of core inflation and the criteria for choosing

among them The approaches to measurement considered include exclusion based methods imputation methods limited influence estimators reweighting and economic modeling Criteria for judging which approach to use include credibility control deviations from a smoothed reference series volatility predictive ability causality and cointegration tests and correlation with money supply Country practice can differ in how the approaches are implemented and how their appropriateness is assessed There is little consistency in the results of country studies to readily suggest guidelines on accepted methods

**Statistical Journal of the United Nations Economic Commission for Europe** ,2003 **Index Theory and Price Statistics** Peter von der Lippe,2007 This textbook integrates mathematical index theory and its application in official price statistics It tries to bridge theory and practice due to the apparent divergence between mathematicians with ever more sophisticated and complex models and practitioners with problems that are more and more difficult to understand without broad knowledge and some experience The text offers an introduction into axiomatic microeconomic and stochastic reasoning as regards index numbers with moderately difficult mathematics It also summarizes many ongoing discussions concerning methodological merits and demerits of specific indices such as consumer price producer price unit value and chain indices in official price statistics The book is comprehensive and presents a readable overview of a great number of topics in modern price index theory and their application in inflation measurement deflation of aggregates in National Accounts sampling and quality adjustment in price collection and other important though controversial issues

Analyse de Politiques ,2005 *Compendium* ,1998 **The ONS Productivity Handbook: A Statistical Overview and Guide** NA NA,Great Britain. Office for National Statistics,2007-07-16 ONS Productivity Handbook a Statistical Overview and Guide examines the importance and relevance of economic productivity and serves as a reference on the subject Areas covered include productivity analysis within various sectors and at firm level as well as measures of labour and capital inputs

*Publications Catalog* International Monetary Fund,2007 Main Economic Indicators ,2002-09-17 This publication compares key aspects of statistical methodologies used by OECD member countries in the compilation of price indicators It is the second in a series of such publications which focus on data comparability in the context of international statistical guidelines and recommendations published by the OECD and other international agencies This publication complements two other OECD publications Main Economic Indicators MEI and Main Economic Indicators Sources and Definitions The MEI is a monthly publication that presents a range of short term economic indicators that provide an overview of recent international economic developments for the 30 OECD member countries and a number of non member countries The Sources and Definitions publication provides explanations on the sources and definitions used by individual member countries and selected non member countries to compile the short term indicators presented in the MEI It also describes a number of data presentation aspects such as index linking and the compilation of zone aggregates ALSO AVAILABLE ON CD ROM AND ON LINE The CD ROM version of the MEI database is available in Beyond 20 20TM for

WindowsTM which is user friendly software that allows the user to extract data and prepare customised tools for analysis such as graphs and tables It contains additional information not available in the paper publication such as extra business survey balance of payments and leading indicator series The database is also available online at [www SourceOECD org](http://www.SourceOECD.org)
