Drawing Conclusions

Drawing conclusions allows someone to be specific with every detail because each serves as evidence for a particular idea. Use the examples below and come up with a conclusion for each one.

1. Amalia jogs every morning as much as she can.
2. Amalia makes sure that she gets at least 8 hours of sleep.
3. She does not eat fatty food and only consumes vegetables and other healthy alternatives.

1. The flow of the event was a bit confusing.
2. The guests did not know at first where they should sit.
3. The food was not appetizing in terms of appearance and arrangement.

1. Jake is an employee who used to excel at his job.
2. Recently, he has been coming to the office late and usually looks unmotivated.
3. He did not submit his work and does not seem to care.

Mental Tests, Their History, Principles and Applications Frank Nugent Freeman, 1926

In this book the author has shown how the mental test idea was evolved out of the laboratory study of individual differences by psychologists how the individual and then the group intelligence tests were developed the application of statistical methods to the interpretation of the results the creation of the different types of scales the extension of the mental test idea in new directions the technique and theory of the tests the uses of the different types of mental tests and their reliability and has closed his treatment with two chapters on the interpretation of what the tests really measure and the nature of intelligence itself The work of hundreds of individual investigators has been organized into a systematic treatise and the place and work of each have been given their proper setting as parts of a great movement The volume is accordingly offered to teachers of college and university classes in Mental Tests with confidence that it will prove as useful in this field as the texts now in use have done in the field of educational tests PsycINFO Database Record c 2005 APA all rights reserved
