 Striving to Improve Series targets students who for whatever reason are struggling to keep up with their peers The activities  
 in the books are designed to prevent students from regressing any further at school The tasks are based on a modified  
 curriculum so that students can work at their own pace and without constant supervision from the teacher This book Integers  
 is focused on the Number and Algebra Strand of the Australian Curriculum for lower ability students and those who need  
 further opportunity to consolidate these core areas in mathematics The section entitled Understanding Integers enables  
 students to reencounter ideas of place value rounding estimation factors multiples and the concept of a directed number The  
 section entitled Calculating With Integers walks students through the four core calculations Students explore addition and  
 subtraction with two and three digit sums and can apply what they have learned to some real life application problems  
 Similarly students explore the various levels of multiplication and division before applying them to a variety of applications  
 Each section provides students with the opportunity to consolidate written and mental methods of calculation with an  
 emphasis on process and understanding The activities can be used for individual students needing further consolidation in a  
 mainstream classroom or as instructional worksheets for a whole class of lower ability students The activities are tied to
