**Teaching Mathematics in Grades 6 - 12** Randall E. Groth, 2012-08-10 A journey into the vibrant and intriguing world of mathematics education Teaching Mathematics in Grades 6 12 explores how research in mathematics education can inform teaching practice in grades 6 12 The author shows secondary mathematics teachers the value of being a researcher in the classroom by constantly experimenting with methods for developing students mathematical thinking and then connecting this research to practices that enhance students understanding of the material The chapters in Part I introduce secondary teachers to the field of mathematics education with cross cutting issues that apply to teaching and learning in all mathematics content areas The chapters in Part II are devoted to specific mathematics content strands and describe how students think about mathematical concepts The goal of the text is to have secondary math teachers gain a deeper understanding of the types of mathematical knowledge their students bring to grade 6 12 classrooms and how students thinking may develop in response to different teaching strategies

*Navigating MathLand* Linda Kasal Fusco, 2017-06-21 Navigating MathLand uses a unique lens to focus on how students prefer to learn mathematics The intent of this book is to provide a guide for parents to help them navigate the thirteen years of their children s math education K 12 The book will provide parents with the knowledge and skills they will need to proactively advocate for their children s preparation for the 21st century workforce
