B. Population Aggregate- Saratoga Springs has population of 26,727 people. The community is involved with youth sports teams. About **600,000 Americans** die from heart disease each year—that's **1 in every 4 deaths**. Coronary heart disease is the most common type of heart disease, killing more than **385,000 people annually**"(CDC 2012 Web).

Community Health Nursing Model

D. For this Project we will be using the Interventions Wheel Model. "The model consists of 17 identified community health nursing interventions that cross over three levels of population-based practice: individual-focused, community-focused, and systems-focused practice.
