The Unmentionable History of the West Nancy Millar, 2006 The Unmentionable History of the West is a fond romp through the underwear that men and women wore in days gone by Think of corsets navy blue bloomers long underwear with its trap door and brassieres that could kill Think also of the other unmentionables that came along with being sexual beings Women had to hide their pregnancies talk of birth control was illegal seduction was a crime prostitution likewise There were so many silences so many secrets about the private lives of men and women Then along came the 1960s and the social revolution known as the women's movement Suddenly underwear was out girdles were gone and women began wearing pants What came first then the women's movement or pants The removal of restrictive underwear or the force that was Gloria Steinem The Unmentionable History of the West tackles these questions seriously but with a good dose of humour

Official Report of Debates, House of Commons Canada. Parliament. House of Commons, 1899      *Hate Crimes* Barbara Perry, 2009 This book offers a comprehensive approach to understanding hate crime its causes consequences prevention and prosecution Hate crimes continue to be a pervasive problem in the United States The murder of Matthew Shepard the lynching of James Byrd the murderous rampage of Benjamin Smith and anti Muslim violence remind us that incidence of

deadly bigotry is not only a recurring chapter in U S history but also a part of our present day world Contrary to common belief hate mongers who commit crimes are rarely members of the Ku Klux Klan or a skinhead group In fact fewer than 5 percent of identifiable offenders are members of organized hate groups Yet rather than being an individual crime hate crime represents an assault against all members of stigmatized and marginalized communities To fully understand the phenomenon of hate crime and reduce its incidence it is necessary to clearly define the term itself to examine the victims and the offenders and to evaluate the consequences and harms of hate crimes This comprehensive five volume set carefully addresses the disturbing variety and incidence of hate crimes exposing their impacts on the broader realms of crime punishment individual communities and society The contributing authors and editors pay critical attention to cutting edge topics such as online hate crimes hate based music anti Latino hostilities Islamaphobia hate crimes in the War on Terror school based anti hate initiatives and more The final volume of Hate Crimes provides valuable food for thought on possible legislative educational social policy or community organizational responses to the varied forms of hate crime Clarifies the ongoing debate regarding what behaviors fall under the umbrella of hate crime and which classes of victims should be included Examines the often overlooked community effect consequences of hate crime Includes material that addresses hate motivated crime directed toward women and the homeless community Offers eye opening insights derived from an interview with a hate crime offender
