

LWCF Proposal Description and Environmental Screening Form

The purpose of this Proposal Description and Environmental Screening Form (PD/ESF) is to provide descriptive and environmental information about a variety of Land and Water Conservation Fund (LWCF) state restoration proposals submitted for National Park Service (NPS) review and decision. The completed PD/ESF becomes part of the "federal administrative record" in accordance with the National Environmental Policy Act (NEPA) and its implementing regulations. The PD portion of the form captures administrative and descriptive details enabling the NPS to understand the proposal. The ESF portion is designed for States and/or project sponsors to use while the LWCF proposal is under development. Upon completion, the ESF will indicate the resources that could be impacted by the proposed enabling State and/or project sponsors to more accurately follow an appropriate pathway for NEPA analysis: 1) a recommendation for a Categorical Exclusion (CE), 2) production of an Environmental Assessment (EA), or 3) production of an Environmental Impact Statement (EIS). The ESF should also be used to document any previously completed yet still viable environmental analysis if used for this federal proposal. The completed PD/ESF must be submitted as part of the State's LWCF proposal to NPS.

Except for the proposals listed below, the PD/ESF must be completed, including the appropriate NEPA document, signed by the State, and submitted with each new federal application for LWCF assistance and amendments for: scope changes that alter or add facilities and/or access, renovations, public facility exceptions, sheltering, outdoor facilities, and changing the original intended use of an area from that which was approved in an earlier LWCF agreement. Consult the LWCF Program Manual (<https://www.nps.gov/lwcf/>) for detailed guidance for your type of proposal and on how to comply with NEPA.

For the following types of proposals only this Cover Page is required because these types of proposals are administrative in nature and are categorically excluded from further NEPA environmental analysis. NPS will complete the NEPA CE form. Simply check the applicable box below, and complete and submit only this Cover Page to NPS along with the other items required for your type of proposal as instructed in the LWCF Program Manual.

- ☐ SOOHP planning proposal
- ☐ Time extension with no change in project scope or with a reduction in project scope
- ☐ To delete work and no other work is added back into the project scope
- ☐ To change project cost with no change in project scope or with a reduction in project scope
- ☐ To make an administrative change that does not change project scope
