The Return of Nature John Bellamy Foster, 2021-06-01 Winner 2020 Isaac and Tamara Deutscher Memorial Prize A fascinating reinterpretation of the radical and socialist origins of ecology Twenty years ago John Bellamy Foster's Marx's Ecology Materialism and Nature introduced a new understanding of Karl Marx's revolutionary ecological materialism More than simply a study of Marx it commenced an intellectual and social history encompassing thinkers from Epicurus to Darwin who developed materialist and ecological ideas Now with The Return of Nature Socialism and Ecology Foster continues this narrative In so doing he uncovers a long history of the efforts to unite questions of social justice and environmental sustainability and helps us comprehend and counter today's unprecedented planetary emergencies The Return of Nature begins with the deaths of Darwin 1882 and Marx 1883 and moves on until the rise of the ecological age in the 1960s and 1970s Foster explores how socialist analysts and materialist scientists of various stamps first in Britain then the United States from William Morris and Frederick Engels to Joseph Needham Rachel Carson and Stephen J Gould sought to develop a dialectical naturalism rooted in a critique of capitalism In the process he delivers a far reaching and fascinating reinterpretation of the radical and socialist origins of ecology Ultimately what this book asks for is nothing short of revolution a long ecological revolution aimed at making peace with the planet while meeting collective human needs **Abandoned**

**Buildings in Contemporary Cities: Smart Conditions for Actions** Isabella M. Lami, 2020-01-08 Is it possible to energise the reuse of urban abandoned spaces with low financial capital investment Addressing this question requires a normative and cultural change where the rules are less focused on the material processes of producing space and more aimed at fostering the construction of relationships The reality of several European cities shows how traditional forms of stimulating urban renewal with respect to the financing of operations how to design and build and urban planning legislation no longer work This book examines an alternative culture of design and regulation drawing on the richness of the various approaches to the subject to present an integrated study of the phenomenon of reuse across its economic architectural and urban dimensions From this theoretical base it empirically analyses six Italian case studies in terms of the broadness of geography and in their governance models and of the important role of the unity of cultural destination for their reuse proposal The book is intended for all those involved in the cultural challenge of reusing urban abandoned spaces including public administrators entrepreneurs architects planners and academics

**The Digital Condition** Felix Stalder, 2018-03-16 Our daily lives our culture and our politics are now shaped by the digital condition as large numbers of people involve themselves in contentious negotiations of meaning in ever more dimensions of life from the trivial to the profound They are making use of the capacities of complex communication infrastructures currently dominated by social mass media such as Twitter and Facebook on which they have come to depend Amidst a confusing plurality Felix Stalder argues that are three key constituents of this condition the use of existing cultural materials for one's own production the way in which new meaning is established as a collective

endeavour and the underlying role of algorithms and automated decision making processes that reduce and give shape to massive volumes of data These three characteristics define what Stalder calls the digital condition Stalder also examines the profound political implications of this new culture We stand at a crossroads between post democracy and the commons a concentration of power among the few or a genuine widening of participation with the digital condition offering the potential for starkly different outcomes This ambitious and wide ranging theory of our contemporary digital condition will be of great interest to students and scholars in media and communications cultural studies and social political and cultural theory as well as to a wider readership interested in the ways in which culture and politics are changing today *A Condition Called Love* 11 Megumi Morino,2022-12-13 After Non chan the girl who assaulted Hotaru many years ago moves back into town things between Hotaru and Hananoi kun grow tense Hananoi kun s attempt to prevent Hotaru from getting hurt again itself hurts her Can he work through this problem and leave his harmful tendencies behind him Or will this be the end for our couple Their mismatched love story takes a new turn The Publishers Weekly ,1909 **The Origin of Civilisation and the Primitive Condition of Man** Sir John Lubbock,1871 *The Geneva Convention of 1906 for the Amelioration of the Condition of the Wounded in Armies in the Field* Geneva Convention, Aug. 22, 1864,1916 **Report on the Progress and Condition of the United States National Museum** United States National Museum,1906 **International Labor Conference** ,1925 **A Condition Called Love 10** Megumi Morino,2022-08-16 It s been six months since Hotaru and Hananoi kun became official but lately Hananoi kun has been acting strangely Finally on their first date in a long time he spills We met once before long ago Meanwhile Hananoi kun seems to have gotten involved with another girl The past and the present intertwine as our couple moves to the next stage **The Academy** ,1886 Botany of the Faröes, Based Upon Danish Investigations ,1908 **On Bronchitis and the Morbid Conditions Connected with It: Being Clinical Lectures Delivered at the Middlesex Hospital** Edward Headlam Greenhow,1878 **Special Libraries** ,1927 Most vols include Proceedings of the Special Libraries Association **Catalogue** Wells, Edgar H. & Co,1928 **Report of the Secretary of State on the Condition of Common Schools** Ohio.
