

port. Further, since EasyJet pre-design seats on-board, passengers sit where they like. This eliminated an unnecessary complexity and speeds up-passenger boarding.

- **No free on-board catering.** Eliminating free catering onboard reduced cost and unnecessary bureaucracy. Passengers can purchase food and refreshments onboard.
- **Efficient use of airports.** EasyJet flies to the less-crowded airports of smaller European cities and avoids the secondary airports in the major cities. These also have lower landing charges, and normally offer faster turnarounds as there are fewer air movements. EasyJet's efficient ground operations enable it to achieve turnarounds of less than 30 minutes. This means EasyJet can achieve price reductions for the high-frequency routes, maximising the utilisation of aircraft. EasyJet's ability to offer point-to-point travel means that it does not have to worry about forward connections for passengers and their baggage, further simplifying its operations.
- **Paperless operations.** EasyJet has embraced the concept of the paperless office, with all its management and administration undertaken entirely on IT systems. These can be accessed through secure servers from employees in the world thereby reinforcing flexibility in the running of the airline.

Questions: Suggest possible activities in the company value chain contributing to success.

1. List all the ways in which EasyJet achieves low-cost operations.
2. Evaluate EasyJet's operations strategy against those of all its rivals in terms of consistency and contribution to competitive advantage (see Figure 2.2).
3. To what extent does EasyJet's concentration on low costs limit its ability to perform well against the other operations performance objectives?
4. What are the risks associated with EasyJet's strategy?

QUESTION

QUESTION

TABLE 2.4 The four-stage model of the strategic role of operations

Stage 1	Internally Neutral	The operations function is internally focused and reactive. They are viewed as a 'necessary evil'. The fact that the organisation hopes for is that operations don't 'come up'.
Stage 2	Externally Neutral	The operations function starts to be as good as the competition, or its relative parity with industry norms. Such an organisation is likely to benchmark its operations against its competitors, and adopt best practice in its industry so that it does not hold the organisation back.
Stage 3	Internally Supportive	The operations function starts to provide credible support for the organisation's business strategy. An operations strategy will be developed which will be derived from, and support, the business strategy. The organisation's operations are likely to be amongst the best in its industry.
Stage 4	Externally Supportive	The operations function provides the basis of competitive advantage for the organisation, by setting the standard in their industry. The operations function is likely to aim to be world class by seeking to emulate best practice wherever it is to be found. Operations will be seen as the means of exceeding customer expectations by delighting the customer. Operations will be managed proactively to drive the business strategy of the organisation.

Key Influences on the Early and Rapid Internationalization in the Airline Industry. A Case Study on easyJet Johannes Michl, 2016-09-12 Master s Thesis from the year 2016 in the subject Business economics Miscellaneous grade 1 0 course International Management language English abstract This dissertation analyses the key influences on the emergence of Born Global Firms BGFs in the airline industry Thus it helps to contribute to the general knowledge on the topic known to date and to be an inspiration for future studies in this area At the centre of attention is the question what key influences favoured the early and rapid internationalization in the case of the low cost airline easyJet In order to answer this question the appropriate methodology of a single case study content analysis approach was chosen Hence reference is made to various documents and archival records such as books company documents company websites journal articles newspaper articles official statistical data and other Internet sources The time period under consideration is from the foundation of the firm to the first internationalization steps The results show that the market conditions of the low state protection in the home country the strong opportunistic behaviour of easyJet when selecting the host country the high internationality and extensive use of technology in the airline industry has promoted the early and rapid internationalization of easyJet Further the findings recommend that majority of easyJet s resources had a positive influence on early and rapid internationalization The most important key influences could be identified in the Human Resources Thus the founder of easyJet is a young confident international experienced man who possesses a positive mind set an international vision and a high risk tolerance Missing industry knowledge of the founder is compensated through the extension of the senior management Thus we can conclude that the decisive aspect of whether or not to internationalize lies with the attitudes of senior management In many cases it requires a paradigm shift in order to move toward the BGF model

Applying the 'No Frills' concept to other specific Airline Businesses Sven

Brueninghaus, 2004-04-05 Master s Thesis from the year 2004 in the subject Business economics Business Management Corporate Governance grade 1 7 A University of Applied Sciences Essen IOM Frankfurt language English abstract The No Frills Airline concept is not a phenomenon of the last couple of years in the Airline industry even if the recent development of these carriers in Europe might lead to this conclusion The first Airline operating under the No Frills concept started in the beginning of the 1970ies in the USA and it took quite a while until this concept was followed by Airlines in Europe South

America and Asia Pacific There were a lot of No Frills Airlines coming and going again in the last 33 years To start an Airline and define it as a No Frills carrier seems to be not enough to be successful in the market for a lot of years Only a very restricted number of these Airlines were successful and profitable for years The question is why What are the reasons why some No Frills Airlines are surviving and others do not This is one of the questions which will be answered in this paper The low cost and low price strategy which is the basis for the No Frills concept in the Airline Industry is a business concept which was described by Porter as one of the basic strategies a company can follow This strategy was followed by a lot of companies in other industries like ALDI IKEA and Toyota These companies followed successfully the cost leadership strategy but adopted also other strategic goals to their business concept like quality and corporate culture items The cost leadership strategy is nothing new but how can it be reached and maintained in the Airline industry What are the prerequisites and the required activities to be successful in this industry with this concept In this paper answers to these questions will be given
