Francesca Bernardini Napoletano, 1977 **Encyclopedia of Italian Literary Studies** Gaetana Marrone, Paolo Pappa, 2006-12-26 The Encyclopedia of Italian Literary Studies is a two-volume reference book containing some 600 entries on all aspects of Italian literary culture. It includes analytical essays on authors and works from the most important figures of Italian literature to little-known authors and works that are influential to the field. The Encyclopedia is distinguished by substantial articles on critics, themes, genres, schools, historical surveys and other topics related to the overall subject of Italian literary studies. The Encyclopedia also includes writers and subjects of contemporary interest such as those relating to journalism, film, media, children's literature, food and vernacular literatures. Entries consist of an essay on the topic and a bibliographic portion listing works for further reading and in the case of entries on individuals a brief biographical paragraph and list of works by the person. It will be useful to people without specialized knowledge of Italian literature as well as to scholars **Italian Literature since 1900 in English Translation** Robin Healey, 2019-03-14 Providing the most complete record possible of texts by Italian writers active after 1900, this annotated bibliography covers over 4,800 distinct editions of writings by some 1,700 Italian authors. Many entries are accompanied by useful notes that provide information on the authors, works, translators and the reception of the translations. This book includes the works of Pirandello, Calvino, Eco and more recently Andrea Camilleri and Valerio Manfredi. Together with Robin Healey's *Italian Literature before 1900 in English Translation* also published by University of Toronto Press in 2011, this volume makes comprehensive information on translations from Italian accessible for schools, libraries and those interested in comparative literature *Calvino's Fictions* Kathryn Hume, 1992 Throughout the novels and stories, the cosmicomic tales with their focus on science are seen as crucial to the development of the symbolic mindscapes that made Calvino a major international writer. He died before arriving at any satisfactory solution to the problems of relating the I to the not-I, but Hume derives from his later works a philosophy based on the creation of likenesses of internal microcosms that permit us to mirror the macrocosm.
