**Reading Apollinaire's Alcools** Willard Bohn,2016-10-27 Reviewing the previous scholarship for seventeen of the most important poems in Alcools this book provides a detailed analysis of each work and includes a state of the art survey of current Apollinaire criticism Besides acquainting readers with the existing scholarship the book considers all the interpretations that have been proposed and indicates profitable directions to pursue Each poem is subjected to a rigorous line by line analysis that engages in a succession of dialogues with previous critics The studies themselves are arranged in roughly chronological order beginning with the Rh nanes in 1901 1902 and concluding with Zone in 1912 Although each chapter is basically conceived as an independent unit readers are able to follow the evolution of Apollinaire s aesthetics from his first mature creations through his subsequent experiments with fantastic hermetic visionary and cubist poetry At the same time they witness Apollinaire s personal evolution from his infatuation with Annie Playden through a period of deep depression his love affair with Marie Laurencin and the aftermath of that relationship Magazine Fluide Glacial - Hors Srie - Tome 112 - Hors Srie dossiers non classs de Fluide Glacial
