Southern-Led Development Finance Diana Barrowclough, Kevin P. Gallagher, Richard Kozul-Wright, 2020-09-29 Southern Led

Development Finance examines some of the innovative new south south financial arrangements and institutions that have emerged in recent years as countries from the Global South seek to transform their economies and to shield themselves from global economic turbulence Even before the Covid 19 crisis it was clear to many that the global economy needed a reset and a massive increase in public investment In the last decade southern owned development banks infrastructure funds foreign

exchange reserve funds and Sovereign Wealth Funds have doubled the amount of long term finance available to developing countries Now as the world considers what a post Covid 19 future will look like it is clear that Southern led institutions will do much of the heavy lifting This book brings together insights from theory and practice incorporating the voices of bankers policymakers and practitioners alongside international academics It covers the most significant new initiatives stemming from Asia tried and tested examples in Latin America and in Africa and the contribution of advanced economies Whilst the book highlights the potential for Southern led initiatives to change the global financial landscape profoundly it also shows their varied impacts and concludes that more is needed for development than just the technical availability of funds As governments and businesses become frustrated by the traditional North dominated mechanisms and international financial system this book argues that southern led development finance will play an important role in the search for more inclusive equitable and sustainable patterns of investment trade and growth in the post Covid landscape It will be of interest to practitioners policy makers researchers and students working on development and finance everywhere

Handbook of Caribbean Economies Robert Looney, 2020-11-10 This volume aims to illustrate the uniqueness of the economies of the countries and territories of the Caribbean as well as the similarities they share with other regions While most countries in the region share many of the characteristics of middle income countries theirs is a matter of extremes Their generally small size suggests a fragility not found elsewhere While much of the world is beginning to feel some effects of climate change the Caribbean is ground zero These factors suggest a difficult road ahead but the chapters presented in this volume aim to help to spur the search for creative solutions to the region's problems The chapters written by expert contributors examine the Caribbean economies from several perspectives Many break new ground in questioning past policy mindsets while developing new approaches to many of the traditional constraints limiting growth in the region The volume is organized in four sections Part I examines commonalities including issues surrounding small economies tourism climate change and energy security Part II looks at obstacles to sustained progress for example debt natural disasters and crime In Part III chapters consider the specific role of external influences including the USA and the European Union the People's Republic of China as well as regional co-operation The volume concludes in Part IV with country case studies intended to provide a sense of the diversity that runs through the region

The Governance Structures of the Bretton Woods Financial Institutions

Ahmed Naciri, 2018-09-11 This book uses institutional data to examine and analyze the current governance structures of Multilateral Financial Institutions MFIs with the ultimate goal of reforming MFI governance models to be more responsive to the needs of developing countries Founded in the post World War II era MFIs collectively known as the Bretton Woods Financial Institutions BWFI were created to promote global economic development and financial stability This book argues however that the governance structures and policies of the MFIs have been biased in favour of developed country members excluding less economically advanced countries from decision making processes and perpetuating the economic status quo Considering the inability of MFIs to adequately respond to the financial needs of developing countries the book raises an alternative proposal for BWFI reform based on the following criteria i encouraging development incentives ii favouring development learning through knowledge transfer and easing its appropriation by developing countries and iii guiding and facilitating access to private international financial markets Combining historical economic analysis with policy recommendations for the future this book will be of particular interest to students and researchers of development economics governance and MFIs as well as practitioners working with the institutions studied
