## **Chapter 1: Economics Issues and Concepts**

### **1.1 What is Economics?**

#### **Microeconomics**

The study of the causes and consequences of the allocation of resources as it is affected by the workings of the price system.

#### **Macroeconomics**

The study of the determination of economic aggregates such as total output, employment, and growth.

#### **Scarcity & Choice**

Relative to our desires, existing resources are scarce. Scarce means insufficient for the demand. There are enough resources to produce only a fraction of the goods and services that we want. Scarcity, therefore, implies the need for choice.

#### **Opportunity Cost**

Opportunity cost is the value of the next best alternative that is forgone when one alternative is chosen.
