

Installation instructions

NOTE: SURE MAINS INPUT HAS A 3 AMP FUSE FITTED.

Installation should be carried out by a qualified electrician or heating engineer.

Position the wallplate with 75 mm clearance to its right, 25 mm above and 150 mm below. Ensure that the supporting surface will fully cover the back of the timeswitch.

Fix the wallplate, terminals at the top, either direct to a flat wall using wall plugs and 7" x flat wood screws or on a flush mounting single conduit box type (A1) (05442) using M5.5 x 14 mm screws. DO NOT use a surface mounting box.

Make wiring connections as shown in the wiring diagram.

Tempus 1 has switch switching to a load from L to N is required for 230V output. For surface wiring, strap out the cable entry strip on the bottom edge of the wallplate. Tempus 1 is double insulated and needs no earth connection but an earth continuity terminal is provided if required.

Select 1/2 day or 24hr mode referring to the jumper position diagram.

There are two positions marked C/D. The jumpers should be removed if necessary and placed across the pins which correspond to the desired option. A/B are not used.

Fit the Tempus 1 onto the wallplate and tighten the securing screws. Check that the fuse is rated correctly (3A) and switch on the mains supply.

Tempus 1 electronic timeswitch User instructions

The Tempus 1 electronic timeswitch will automatically switch ON and OFF up to three times a day. You can select one set of times for weekdays and different times for weekends (1/2 day), or programme each day of the week the same (24 hour).

The BOOST feature gives an extra one or two hours ON time when selected. The display will show the next switching time as well as the actual time of day. In the event of a power failure, the battery back-up will hold the programme times in memory.

All changes to clock and

programme times are made using the slider switch, together with the TIME and DAY buttons. Follow the step-by-step instructions included to set your desired programme.

Important note:

If you are replacing an old style Tempus, ensure the wire connected to terminal 2 on the wall-plate to terminal 3 (ON).

Please read the following notes before programming your Tempus.

You cannot set the first ON

before midnight i.e. the previous day.

If you try to set an ON time after it's matching OFF time, both will 'lock' and the ON and OFF symbols in the display will flash alternately.

Press SELECT and TIME at the same time to return all settings to factory pre-sets.

The slider switch must be in the RUN position before the cover will close.

To select 1/2 day or 24 hour modes see installation instructions on back page.
