
DRIVERS ED: MODULE 10 QUESTIONS AND ANSWERS WITH SOLUTIONS 2024

The blue car approaches an intersection with a green light, intending to turn right. A large truck ahead of the blue car activates its right turn signal, but moves into the left lane. What should the driver of the blue car do? - ANSWER Slow down and let the truck make its turn— sometimes large trucks need to enter the opposite lane to allow for wider turns.

NO ZONES - ANSWER A truck's blind spots are called NO ZONES. A No Zone is the area around the truck where your car is no longer visible or where you are so close that the truck can't stop or maneuver safely. In both cases, when you are in a No Zone, you are in much greater danger of getting into a collision.

If you are attempting to pass a truck in a level, legal passing zone use the following method: - ANSWER If you are attempting to pass a truck in a level, legal passing zone use the following method:

Check the area around the front and rear of your vehicle. You may move into the next lane if space is available. You can let the truck driver know your intention to pass by flashing the headlights on your car.

Trucks often move much slower on an upgrade. For this reason, it should be easier to pass a truck on an upgrade than it is to pass a car. However, trucks traveling on a downgrade move faster. In this situation, you should increase your speed (at a safe rate) to pass.

Finish the pass as quickly as possible at a safe speed. If the driver flashes the lights of the truck, this is a signal meaning that it's safe to pull back into the lane. It is safe to move back in when you can see the front of the truck in your rearview mirror.

The blue car approaches a highway from an onramp. A large truck is already in the lane the car wishes to merge into. What should the driver of the blue car do? - ANSWER Slow down, allow the truck to pass, then merge into the lane when it's safe to do so.

SAFETY FIRST - ANSWER SAFETY FIRST

Don't follow too closely or tailgate trucks. When you follow behind a truck and you cannot see the truck driver's side view mirrors, the trucker has no way of knowing you are there. Tailgating a truck, or any vehicle, is dangerous because by doing so you take away your own cushion of safety. Where will you go when the vehicle ahead suddenly stops?
