Droit Du Travail:

Droit du travail André Brun, Henri Galland, 1958 **Le droit du travail** Alain Supiot, 2011 *Droit du travail communautaire* Roger Blanpain, Jean-Claude Javillier, 1991 **Vers de nouveaux rapports entre l'éthique et le droit** Willy Apollon, 1991

On aimerait croire Cicéron quand il affirme que les lois sont offertes comme des semences de mœurs et qu'il convient de les tenir pour l'expression de la droite raison. On serait alors assuré d'une féconde harmonie entre les noncs du droit et les exigences de la morale. Mais les questions ne tardent pas à fuser. Le droit serait-il comme le suggère Cicéron antérieur la laboration des normes morales ou l'inverse serait-il plutôt le reflet des valeurs tabliées par une société? Dans l'exercice de son mandat le législateur reste-t-il asservi aux contingences de la politique ou sait-il garder en perspective les prémisses légitimes de l'instance éthique? Est-il abusif d'affirmer que les morales ont longtemps cherché à faire la loi alors que la loi chercherait aujourd'hui à faire la morale? Nos sociétés démocratiques seraient-elles ainsi en train de dériver vers une sorte d'impérialisme juridique? Telles sont quelques-unes des interrogations qui ont précédé la préparation de cet ouvrage qui invite un vaste questionnement.

Droit du travail André Brun, Henri Galland, 1978 **The Sources of Labour Law** Tamás Gyulavári, Emanuele Menegatti, 2019-12-06

Labour law has traditionally aimed to protect the employee under a hierarchy built on constitutional provisions, statutory law, collective agreements at various levels and the employment contract in that order. However, in employment regulation in recent years, flexibility has come to dominate the world of work, a set of policies that reshuffle the relationship among the fundamental pillars of labour law and inevitably lead to degrading the protection of employees. This book, the first ever to consider the sources of labour law from a comparative perspective, details the ways in which the traditional hierarchy of sources has been altered, presenting an international view on major cross-cutting issues followed by fifteen country reports. The authors' analysis of the changing hierarchy of labour law sources in the light of recent trends includes such elements as the following: the constitutional dimension of labour rights; the normative intervention by the State; the regulatory function of collective bargaining and agreements; the hierarchical organization of labour law sources; and the principle of favour, the role played by case law in both common law and civil law countries; the impact of the European Economic Governance; decentralization of collective bargaining; employment conditions as key components of global competitive strategies; statutory schemes that allow employees to sign away their rights. National reports: Australia, Brazil, China, Denmark, France, Germany, Hungary, Italy, Poland, Russia, Spain, Sweden, South Africa, the United Kingdom and the United States describe the structure of labour law regulations in each legal system with emphasis on the current state of affairs. The authors, all distinguished labour law scholars in their countries, thus collectively provide a thorough and comprehensive commentary on labour law regulation and recent tendencies in national labour laws in various corners of the globe. With its definitive analysis of such crucial matters as the decentralization of collective bargaining and how individual employment contracts can deviate from collective agreements and statutory law and its comparison of representative

Le droit du travail Michèle Bonnechère, 2008 Les règles du droit du travail sont un enjeu des politiques et des luttes sociales Comme branche du droit ou discipline intellectuelle s'attachant à comprendre le cadre juridique le droit du travail a joué un rôle pionnier Il est erroné de présenter le droit du travail comme nécessairement protecteur des salariés mais il est également inexact d'analyser son évolution contemporaine comme dévastatrice et soumise à l'économie de marché Soulignant les contradictions du droit du travail tout en se situant résolument dans l'optique du travail d'aujourd'hui ce livre est une introduction à ces grandes questions quelles sont les bases d'un droit du travail Quels rôles respectifs la loi la négociation collective les normes européennes et internationales jouent-elles ? Où va le contrat de travail Cet ouvrage est une invitation à mobiliser les outils permettant de garantir les droits fondamentaux des travailleurs Il intéressera ceux qui souhaitent comprendre les concepts sur lesquels se construit le droit du travail et les mécanismes qui définissent le statut du travail dans la société
