HUMAN RESOURCE DEVELOPMENT AMONGST PRIMARY SCHOOL TEACHERS Dr. Reshma Sukhadev

Gajakosh,2019-11-19 School is the temple of learning It is a unique institution that plays a dominant role in the life of individuals Particularly primary education occupies an important position because it is here that the process of formal learning begins It lays a sound foundation for a knowledge based economy in years to come Primary education is important because it moulds the personalities of our children to lead a better life It tries to shape the behavior of younger generations Therefore primary school is an important institution of our society There are two levels of primary schools One is called as lower primary schools LPS and the other one is called as higher primary schools HPS In LPS education is imparted from first to fifth standard In HPS education is imparted from sixth to eighth standard

School Education in India Manish Jain,Archana Mehendale,Rahul Mukhopadhyay,Padma M. Sarangapani,Christopher Winch,2018-05-11 This volume examines how the public and private domains in school education in India are informed and mediated by current market realities It moves beyond the simplistic dichotomy of pro state versus promarket factors that define most current debates in the formulations of educational reform agendas to underline how they need to be interpreted in the larger context The chapters in the volume present a series of conceptual and empirical investigations to understand the growth of private schools in India investigate the largely uncontested claims made by the private sector regarding provision of superior quality of education and their ability to address the educational needs of the poor Further the book looks at how the private public dichotomy has been extended to professional identity of teachers and teaching practices as well Rich in primary data and supported by detailed case studies this volume will be of interest to teachers scholars and researchers dealing with education educational policy school education and public policy It will also interest policy makers think tanks and civil society organisations

Emerging Trends in Indian School Education System Dr. A. R. Purwant,2020-06-26 Introduction On August 15 1947

India attained Independence from the British domination This gave the people of the country the first fullest opportunity to mould their educational policy according to the needs of the nation in the fast changing times But this opportunity was not free from heavy responsibilities that lay ahead for reorienting the entire system of education which apart from enabling the coming generations to develop their natural faculties may also enable them to rebuild a new India The content of learning which from the very beginning of the British era had been mainly of a general and theoretical nature had to be given a practical bias The country needed a large number of technicians engineers doctors scientists and other skilled workers who could impart a new shape to various things in the developing economy of the country which had been languishing under colonial exploitation for about two centuries These were indeed very heavy and arduous tasks and the new Government and people of the country had no option but to accept the challenge of the situation and make their best efforts to put the education in the country on right lines The most important problems in the field of education before the national

governments were the expansion of facilities for mass compulsory elementary education reform of the secondary and university educational systems to develop vocational and technical education at various levels to encourage women education and also to reorganise the structure of educational administration With a view to fulfil all these objectives the Central and State Governments have been endeavouring to give a concrete shape to various programmes under the Five Year Plans We propose to discuss in detail all these efforts in the following chapters in this book This chapter however presents only a brief analysis of the main events of educational importance during the period of Planning in India

Anthropocene Ecologies of Food Simon C. Estok, S. Susan Deborah, Rayson K. Alex, 2022-06-22 Anthropocene Ecologies of Food provides a detailed exploration of cross cultural aspects of food production culinary practices and their ecological underpinning in culture The authors draw connections between humans and the entire process of global food production focusing on the broad implications these processes have within the geographical and cultural context of India Each chapter analyzes and critiques existing agricultural food practices and representations of aspects of food through various media such as film literature and new media as they relate to global issues generally and Indian contexts specifically correcting the omission of analyses focused on the Global South in virtually all of the work that has been done on Anthropocene ecologies of food This unique volume employs an ecocritical framework that connects food with the land in physical and virtual communities and the book as a whole interrogates the meanings and implications of the Anthropocene itself

Adoption and impact of OER in the Global South Cheryl Hodgkinson-Williams, Brazil Arinto, 2017-12-29 Education in the Global South faces several key interrelated challenges for which Open Educational Resources OER are seen to be part of the solution These challenges include unequal access to education variable quality of educational resources teaching and student performance and increasing cost and concern about the sustainability of education The Research on Open Educational Resources for Development ROER4D project seeks to build on and contribute to the body of research on how OER can help to improve access enhance quality and reduce the cost of education in the Global South This volume examines aspects of educator and student adoption of OER and engagement in Open Educational Practices OEP in secondary and tertiary education as well as teacher professional development in 21 countries in South America Sub Saharan Africa and South and Southeast Asia The ROER4D studies and syntheses presented here aim to help inform Open Education advocacy policy practice and research in developing countries
