Drive Vehicle Sketches And Renderings By Scott Robertson:

Drive Scott Robertson,2011-02 Robertson s latest vehicle designs intended for the video game space featuring skillfully drawn sketches and renderings Divided into 4 chapters each with a different aesthetic aerospace military pro sports and salvage the book is bursting with black and white and full colour images of sports cars big rigs and off road vehicles

Drawing for Product Designers Second Edition Kevin Henry,2025-01-30 Designers do far more than visualize new products they are called upon to imagine a future and bring it to life through visuals Whether such futures begin as elaborate maps and diagrams of emerging technology or speculative world building the contemporary designer s skill set must cover the entire spectrum from abstract to representational and from low fidelity to high fidelity visualizations The advent of tablet based sketching VR sketching and hybrids bring new and more intuitive ways of working But confidence in manipulating lines curves and surfaces in space whether flat computer assisted or virtual will remain a coveted skill regardless of where technology leads In this practical guide to both hand and computer drawn design essential principles are outlined so that readers will learn to think in 3D and build complex design ideas that are structurally sound and visually clear Specially created sketches and computer models show how to develop rough sketches into finished illustrations while also explaining how to select the right type of representation for the right purpose This revised edition contains new material on sketching principles working across platforms and hybrid workflows Also new to this edition coverage of UX UI design for smart devices and digital platforms and information on cutting edge technology such as AI tools and intuitive and collaborative VR sketching platforms There are fifteen new case studies featuring work by leading designers and a selection of videos further illuminate themes discussed in the book List of chapters The Sketching Spectrum Perspective Visual Spatial Overview

Orientation Registration Form Line Exploring Ideas in Space and Time Sketching and Storytelling **Drawing for Product Designers** Kevin Henry,2012-08-27 With its tutorial based approach this is a practical guide to both hand and computer drawn design Readers will learn to think three dimensionally and build complex design ideas that are structurally sound and visually clear The book also illustrates how these basic skills underpin the use of computer aided design and graphic software While these applications assist the designer in creating physical products architectural spaces and virtual interfaces a basic knowledge of sketching and drawing allows the designer to fully exploit the software Foundational chapters show how these technical skills fit into a deeper and more intuitive feeling for visualisation and representation while featured case studies of leading designers artists and architects illustrate the full range of different drawing options available Hundreds of hand drawn sketches and computer models have been specially created to demonstrate critical geometry and show how to build on basic forms and exploit principles of perspective to develop sketches into finished illustrations There s also advice on establishing context shading and realizing more complex forms *How to Illustrate and Design Concept Cars* Adrian Dewey,2011-11-15 The automobile seems to be as popular now as it ever was Posters of cars still adorn many a child s

bedroom wall and school exercise books are full of doodles of cars This book takes those notebook sketches and teaches you how to develop them into the car designs you see in magazines Using simple to follow step by step drawings it guides you from pencil sketch to marker rendering from doodle to highly visual computer generated artwork Adrian Dewey has worked on designs as diverse as small sports cars to double decker buses modified motors to concept Formula 1 cars using various techniques and styles In this book he uses his knowledge of the different styles to guide the reader in creating great artwork and designs of their own The book shows in detail how to use different materials and how to get the most out of each one whether it be a great pencil sketch or a photo realistic vector illustration The book also features an easy to follow index for quick reference on different types of drawing
