*Delay and Disruption Tolerant Networks* Aloizio Pereira da Silva, Scott Burleigh, Katia Obraczka, 2018-09-04 Delay and Disruption Tolerant Networks DTNs are networks subject to arbitrarily long lived disruptions in connectivity and therefore cannot guarantee end to end connectivity at all times Consequently DTNs called for novel core networking protocols since most existing Internet protocols rely on the network's ability to maintain end to end communication between participating nodes This book presents the fundamental principles that underline DTNs It explains the state of the art on DTNs their architecture protocols and applications It also explores DTN's future technological trends and applications Its main goal is to serve as a reference for researchers and practitioners [Advances on P2P, Parallel, Grid, Cloud and Internet Computing](#) Fatos Xhafa, Santi Caballé, Leonard Barolli, 2017-11-02 This book presents the latest innovative research findings on P2P Parallel Grid Cloud and Internet Computing It gathers the Proceedings of the 12th International Conference on P2P Parallel Grid Cloud and Internet Computing held on November 8-10 2017 in Barcelona Spain These computing technologies have rapidly established themselves as breakthrough paradigms for solving complex problems by enabling the aggregation and sharing of an increasing variety of distributed computational resources at large scale Grid Computing originated as a paradigm for high performance computing offering an alternative to expensive supercomputers through different forms of large scale distributed computing while P2P Computing emerged as a new paradigm after client server and web based computing and has shown to be useful in the development of social networking B2B Business to Business B2C Business to Consumer B2G Business to Government B2E Business to Employee and so on Cloud Computing has been defined as a computing paradigm where the boundaries of computing are determined by economic rationale rather than technical limits Cloud computing has quickly been adopted in a broad range of application domains and provides utility computing at large scale Lastly Internet Computing is the basis of any large scale distributed computing paradigm it has very rapidly developed into a flourishing field with an enormous impact on today's information societies serving as a universal platform comprising a large variety of computing forms such as Grid P2P Cloud and Mobile computing The aim of the book [Advances on P2P Parallel Grid Cloud and Internet Computing](#) is to provide the latest findings methods and development techniques from both theoretical and practical perspectives and to reveal synergies between these large scale computing paradigms **Wireless Communications, Networking and Applications** Qing-An Zeng, 2015-10-28 This book is based on a series of conferences on Wireless Communications Networking and Applications that have been held on December 27-28 2014 in Shenzhen China The meetings themselves were a response to technological developments in the areas of wireless communications networking and applications and facilitate researchers engineers and students to share the latest research results and the advanced research methods of the field The broad variety of disciplines involved in this research and the differences in approaching the basic problems are probably typical of a developing field of interdisciplinary research However some main areas of research

and development in the emerging areas of wireless communication technology can now be identified. The contributions to this book are mainly selected from the papers of the conference on wireless communications networking and applications and reflect the main areas of interest: Section 1 Emerging Topics in Wireless and Mobile Computing and Communications; Section 2 Internet of Things and Long Term Evolution Engineering; Section 3 Resource Allocation and Interference Management; Section 4 Communication Architecture Algorithms Modeling and Evaluation; Section 5 Security Privacy and Trust; and Section 6 Routing Position Management and Network Topologies.
