 differ widely across undergraduate institutions dedicated psychology educators at all academic levels share an interest in
 uncovering optimal teaching practices To aid the process of pedagogical discovery this book addresses three contemporary
 concerns of psychology teachers and links these ideas to the first five learning goals and outcomes discussed in the American
 Psychological Association's APA's 2007 Guidelines for the Undergraduate Psychology Major a knowledge base of psychology
 b research methods in psychology c critical thinking skills in psychology d application of psychology and e values in
 psychology Within the broad framework of a constructivist educational perspective that promotes active and enduring
 learning this book affords undergraduate psychology teachers opportunities to a align course content with APA endorsed
 student learning outcomes b integrate class tested instructional strategies with authentic or real world learning and
 assessment tools designed to foster higher order thinking and c assess students understandings of course content along a
 developmental continuum that gauges academic progress from the introductory psychology course through receipt of the
 baccalaureate degree This book is not meant to be prescriptive Rather it is intended as an advisory instructional resource to
 provide a general framework from which to approach undergraduate psychology curricula one that permits maximum
