STEPPING ON THE WAVES

Waves is the medium of communication between the ocean and the earth. She conveys the emotion of the ocean to the earth and brings the gift of the earth back to the sea. With the intention of "Waves", the architecture cuts into the theme of the coast and constructs the contemporary urban space among people, sea and sky. As an abstract symbol, ocean waves form the overall characteristics of architecture, form a dialogue system between architecture and nature, the blend of ocean and land, and the new symbolic significance of architecture.
