Double Cross English Edition:

Turnabout and Deception Barton Whaley, 2016-07-15 Turnabout and Deception combines two of spymaster Barton Whaley's most potent analyses of the craft Turnabout Crafting the Double Cross and When Deception Fails The Theory of Outs Each examination delves into extensive case studies to establish not only foundational understandings of essential espionage principals but also creates guidance for their practical application on both individual and governmental scales Deception is a basic tactic used by allies and enemies alike but when both protagonist and antagonist ply the same trade it is the master of the double cross who comes out the victor Turnabout and Deception examines how to turn the tables on an opponent and use their own deception against them Through thirty eight case studies this monograph dissects the double cross to reveal the psychological battle of wits at its core No matter how well crafted however there is always a chance that a deception will fail But failure is not the end of a deception and even failed deception operations can yield results Turnabout and Deception pores over sixty more case studies to determine why a deception will fail steps to prevent a failed operation and how to turn that failure into a success

Birth of Scientific Ecology Patrick Matagne, 2024-02-21 This book presents a biography of the Danish botanist Eugen Warming As the author of a treatise on ecology that brought him international recognition he was able to inspire the first generation of 20th century European and American ecologists His innovative approach to nature and his Arctic and tropical missions heralded the birth of a new science and an ecological awareness As a professor at several Scandinavian universities during a period of intense debate and controversy over evolutionary theories Eugen Warming vigorously asserted his convictions Birth of Scientific Ecology presents the image of a man of knowledge and power recognized by his contemporaries as a founder of ecology and a player in the ecological project of the Kingdom of Denmark at a time when the empires were clashing
