Baniqued, Cesar A. Dulong, 2016-08-25 Research Paper postgraduate from the year 2015 in the subject Guidebooks School Education Pedagogy Rizal Technological University language English abstract This study aims to find out the readiness level of engineering freshman students in college physics at Rizal Technological University of the academic year 2013-2014. The descriptive method through correlational survey technique was used in the study. Percentage analysis of variance and Spearman rank correlation coefficient was used to analyze the data and the readiness level of the respondents was categorized based on DepEd Order No. 73, 2012. Results of the study showed the level of proficiency of the respondents in high school physics is proficient, developing in college algebra, plane and spherical trigonometry, and in Hewitt's basic content in physics. No significant variations in the college physics performance of respondents when grouped according to profile variables. A negative correlation between the respondents' performances in Hewitt's Basic Content Physics Test and a positive correlation in college algebra. The positive correlation between the respondents' performances in Hewitt's Basic Content Physics Test and in plane and spherical trigonometry with a computed value of 0.12 is found to be significant at 0.05 level. Based on the findings, researchers recommended to identify other factors that might affect students' readiness in college physics aside from the variables used in the study. **Conceptual Physical Science, Explorations** Paul G. Hewitt, John

Suchocki, Leslie A. Hewitt, 2003 Concepts before computation is what this Hewitt text is all about. The text brings physics, chemistry, earth science, and astronomy together in a manner that captivates students' interest. This is serious science in a very readable and student-friendly format. With an emphasis on qualitative analysis, students get a gut feel for the science they're studying. Students will learn to appreciate and differentiate among major scientific ideas rather than reduce them to algebraic problem solving. This sets the foundation for more serious study of the life sciences in subsequent courses. **El-Hi Textbooks and Serials in Print**, 2003 Practice Book: Conceptual Physical Science Paul G.
