**Satva and Soul - Companion to "Soul and Satva - Sermons of Life"** Dr. Gurudutta Japee, Dr. Preeti Oza, Fr. Magi Murzello, 2022-11-10 Can you recall a time when a story made an impression on you Have you ever felt transported to another time and place where you felt the feelings and understood the motivations of the people there Through storytelling we can put ourselves in the characters shoes We share many of their feelings and understandings The question of how we would respond if put in a comparable situation is something we may all ask ourselves One of the many advantages of listening to or reading captivating stories is the feeling of belonging they can evoke They help the audience feel at ease which boosts their openness to new information and allows them to enter the story from their perspective Because of the flexibility of good stories they are surprisingly useful at breaking down complex ideas into manageable chunks To that end telling a story is more engaging than explaining a theoretical concept or reciting a list of numbers Every day we face a myriad of moral conundrums Once we've given anything some thought and formed an opinion about its goodness or evilness that view tends to stick with us Although we don't always follow our moral convictions they do serve as a source of motivation for us Sometimes the most important lesson we can learn from a story is the value of human interaction

Engagement suitable for a wide range of students Safer learning environments encouraging creative thinking providing information that is retained It's no surprise that executives in various industries are turning to storytelling as a potent means of accomplishing the aforementioned goals Storytelling has universal appeal Through the power of the author's imagination even the most mundane circumstances can be elevated to the fantastic in a story Wonderful journeys await us with their guidance and we might learn compassion from them They can make us happy sad or scared but always leave us feeling better in the end From an early age we are taught to take pleasure in stories both as a means of entertainment and as a tool in our quest for self and world understanding Anger disgust fear happiness sadness and surprise are the six primary emotions that everyone experiences on a regular basis The book's purpose is to instantly motivate or emotionally connect with the reader through the power of a gripping story This book is our earnest effort to convey a single message to you Life isn't easy yet it can be stunning at times We must all make choices and the joy of living is in accepting them and making the most of the

outcomes
