Boxing: the Complete Guide to Training and Fitness S. MAHAJAN, 2021-05-27 Boxing is becoming more and more popular these days. While it definitely had its height of popularity a few many years ago as well as certain more recent incident occurring in the sport of boxing, it is starting to once again become of more and more interest to the average Joe. Most of who think that not only does it seem like a more fun workout than others but it seems to be one of the easier ways to build great strength and upper body mass. This does have truth to it but here let's explore what it takes in the real true pursuit of becoming an actual boxer. The basic boxer must utilize at least one of the two necessary qualities that can be best used when fighting an opponent who hopefully possesses the opposite. One of the qualities is speed. You must be faster and quicker to the punch or respond more quickly to the block than the other boxer. Obviously this can vary through the rounds of a boxing tournament as your condition is definitely going to be weakened by each round. Having a better speed and mental reaction time will almost always overpower that of the other necessary quality of being a boxer. That other quality is power. If you can't pack that knockout punch then you definitely need to up your training schedule and advance your current workout. Rarely does one wake up one morning and make the decision to be a boxer. Unless of course it is as a child and that dream is maintained throughout childhood and steps towards that goal are actively taken throughout adolescence. *Boxing 101*
