Breaking The Spell The Holocaust Myth Reality:

Breaking the Spell: The Holocaust, Myth & Reality Nicholas Kollerstrom, 2021-08-18 In 1941 British Intelligence analysts cracked the German Enigma code This undermined the German war effort but also threw new light on day by day events in the Nazi concentration camp system Between January 1942 and January 1943 encrypted radio communications between those camps and the Berlin headquarters were intercepted and decrypted Oddly enough historians have largely ignored the information furnished in these intercepts relating to arrivals departures recorded deaths and other events at these camps The only reasonable explanation for this embarrassing omission is that the intercepted data seriously contradicts even refutes the orthodox Holocaust narrative The revealed information does not expose a program of mass murder and racial genocide Quite the opposite it reveals that the Germans were determined desperate even to reduce the death rate in their work camps which was caused by catastrophic typhus epidemics Were the British here hoodwinked by the Nazis as some historians to this day try to claim or is the truth both simpler and more shocking In 1988 and 1991 forensic studies threw light on the question of whether or not the claimed gas chambers at Auschwitz had served as slaughter houses for hundreds of thousands of people Both studies had concluded that the only facilities where Zyklon B gas had been used were hygienic rather than homicidal killing bugs rather than Jews Needless to say that these iconoclastic studies were ignored or in some countries even outlawed and that their authors were ostracized and even imprisoned Dr Kollerstrom a science historian has taken these studies which are in obvious stark contrast to the widely accepted narrative as a starting point for his own endeavour into the land of taboo After he had published a brief paper summarizing what he thought the data forced him to conclude he was thrown out of his College where he had been a member of staff for eleven years In his book *Breaking the Spell* Dr Kollerstrom shows that witness statements supporting the human gas chamber narrative clearly clash with the available scientific data He juxtaposes the commonly accepted ideas about a Nazi extermination policy toward the Jews with a wide array of mostly unchallenged but usually unmentioned evidence pointing in a quite different direction for instance Zyklon B is a buzz word for the claimed Nazi mass murder but all non anecdotal evidence proves that this chemical was merely used as a pesticide in order to improve the inmates health and reduce not increase camp mortality Zyklon B applied in delousing chambers formed chemical compounds detectable to this day No such compounds can be found but ought to be expected in the claimed homicidal gas chambers The UK s intelligence decrypts prove that the German camp authorities were desperately trying to save their inmates lives Six Million Jews threatened or killed read 167 quotes from newspapers with that news spanning from 1900 to 1945 with a peak after World War ONE Yes one not two Germany has paid compensation to millions of Nazi victims and Israel has implicitly admitted that many million Jews survived the Holocaust A British archaeological team looked for traces of the claimed 800 000 victims of the Treblinka camp and came back empty handed Dr Kollerstrom concludes that the history of the Nazi Holocaust has been written by the victors with ulterior motives

Breaking the Spell Nick Kollerstrom,2014 **Biblical Eschatology:** Dr. Justin G. Prock,2021-06-20 In recent history men from a variety of backgrounds have come to the same conclusion that the Bible is about Israel only For example In 1861 John Mason Neale translated an ancient twelfth century Latin hymn and its title was O Come O Come Emmanuel Ever since 1861 Christians have sung that hymn at Christmas time especially at Advent Do you know what the words really mean that you are singing In 1878 Edward Hine wrote an article titled Seven Eighths of the Bible Misunderstood wherein he explains that seven eighths of the Bible is about national salvation i e the national salvation of True Israel whereas only one eighth of the Bible is about personal salvation Did you know that In the 1960 s Pastor Sheldon Emry wrote an article title An Open Letter to Any Minister Who Teaches the Jews Are Israel wherein he is of the opinion that the Israel that exists today since 1948 is not the True Israel of the Bible In 1998 Arnold E Kennedy wrote a book titled The Exclusiveness of Israel wherein he legally proves using the King James Version of the Bible that the Bible in general is only about True Israel So here we are in the Twenty First Century and the Gospel that is preached today is totally convoluted from that which was preached in the First Century A D by Yahshuah and His disciples i e the Gospel of the Kingdom So where did the so called churches and pastors go wrong By the way is there really a hierarchy in the Bible In order to find out what the truth really is we have to look at the original languages in which the Bible was written and then translated For example the Old Testament was written in Hebrew and Aramaic then translated into Greek The New Testament was written in Hebrew and Greek Both Testaments were put together and translated into Latin then German and finally into English from which the entire world received their own translation of the Bible So what was the original meaning of the words used in the original languages i e the etymology of the words Once that is determined then we can go onto the next phase and discuss types in the Bible From there what is the Law of First Mention How should Bible prophecy be Interpreted Who are the keys to Bible prophecy Where are we in the Bible prophecy timeline During these discussions we will find out who Yahweh chose of all the families of the earth to make His own The churches teach universalism The question then becomes Who was Yahweh s Law given to What are the Laws of Yahweh And then the even bigger question becomes Who was Yahshuah sent to All of these questions and more will be answered as you read this book *Holocaust and Genocide Denial* Paul Behrens,Olaf Jensen,Nicholas Terry,2017-05-18 This book provides a detailed analysis of one of the most prominent and widespread international phenomena to which criminal justice systems has been applied the expression of revisionist views relating to mass atrocities and the outright denial of their existence Denial poses challenges to more than one academic discipline to historians the gradual disappearance of the generation of eyewitnesses raises the question of how to keep alive the memory of the events and the fact that negationism is

often offered in the guise of historical revisionist scholarship also means that there is need for the identification of parameters which can be applied to the office of the genuine historian Legal academics and practitioners as well as political scientists are faced with the difficulty of evaluating methods to deal with denial and must in this regard identify the limits of freedom of speech but also the need to preserve the rights of victims Beyond that the question arises whether the law can ever be an effective option for dealing with revisionist statements and the revisionist movement In this regard Holocaust and Genocide Denial A Contextual Perspective breaks new ground exploring the background of revisionism the specific methods devised by individual States to counter this phenomenon and the rationale for their strategies Bringing together authors whose expertise relates to the history of the Holocaust genocide studies international criminal law and social anthropology the book offers insights into the history of revisionism and its varying contexts but also provides a thought provoking engagement with the challenging questions attached to its treatment in law and politics

The Aesthetics of Mythmaking in German Postwar Culture André Fischer, 2024-03-15 Myths are a central part of our reality But merely debunking them lets us forget why they are created in the first place and why we need them Andr Fischer draws on key examples from German postwar culture from novelists Hans Henny Jahn and Hubert Fichte to sculptor and performance artist Joseph Beuys and filmmaker Werner Herzog to show that mythmaking is an indispensable human practice in times of crisis Against the background of mythologies based in nineteenth century romanticism and their ideological continuation in Nazism fresh forms of mythmaking in the narrative visual and performative arts emerged as an aesthetic paradigm in postwar modernism Boldly rewriting the cultural history of an era and setting in transition The Aesthetics of Mythmaking in German Postwar Culture counters the predominant narrative of an exclusively rational Vergangenheitsbewältigung coming to terms with the past Far from being merely reactionary the turn toward myth offered a dimension of existential orientation that had been neglected by other influential aesthetic paradigms of the postwar period Fischer's wide ranging transmedia account offers an inclusive perspective on myth beyond storytelling and instead develops mythopoesis as a formal strategy of modernism at large

The Selfish Altruist Tony Vaux, Anthony Vaux, 2013 Provides an analysis of some of the most traumatic situations involving famine and war of the last two decades helping us to understand what it takes to be an aid worker and how important humanitarian action is today Famine and war evoke strong emotional reactions and for most people there is a limited amount they can do But the relief worker has to convert emotional responses into practical action and difficult choices whom to help and how Their own feelings have to motivate action for others But can they separate out their own selfish feelings and
