Dispenza, 2010-01-01 Why do we keep getting the same jobs, taking on the same relationships, and finding ourselves in the same emotional traps? Dr. Joe Dispenza not only teaches why people tend to repeat the same negative behaviors; he shows how readers can release themselves from these patterns of disappointment. With the dynamic combination of science and accessible how-to, Dispenza teaches how to use the most important tool in one's body and life: the brain. Featured in the underground smash hit of 2004, *What the Bleep Do We Know?*, Dispenza touched upon the brain's ability to become addicted to negative emotions. Now, in his empowering book *Evolve Your Brain*, he explains how new thinking and new beliefs can literally rewire one's brain to change behavior, emotional reactions, and habit-forming patterns. Most people are unaware of how addicted they are to their emotions and how the brain perpetuates those addictions automatically. In short, we become slaves to our emotional addictions without even realizing it. By observing our patterns of thought and learning how to rewire the brain with new thought patterns, we can break the cycles that keep us trapped and open ourselves to new possibilities for growth, happiness, and emotional satisfaction. **Key Features:** A radical approach to changing addictive patterns and bad habits. Based on more than twenty years of research. Bridges the gap between science, spirituality, and self-help. A formula that has proven success. Easy to understand and written for the average reader. **Rebuilding Milo** Aaron Horschig, Kevin
