Handbook of Clinical Child Psychology Johnny L. Matson, 2023-06-10 This comprehensive handbook explores the many issues affecting children's physical and mental health. Its coverage spans a broad range of topics exploring the history and foundations of clinical child psychology as well as the discipline's theories, research base, ethical and legal implications, and diagnostic systems including the NIMH's Research Domain Criteria (RDoC). The handbook examines family risk factors for children, e.g., parental stress, divorce, and depression, and provides leading edge reviews of cognitive variables, e.g., theories of memory, executive function, theories of intelligence, theory of mind, and cognitive tempo. In addition, it describes methods of assessment including checklists, interviews, and methods of treatment, e.g., cognitive behavior therapy, mindfulness, and family therapy. Chapters focus on assessment of specific diagnostic categories such as depression, anxiety, selective mutism, ADHD, and pediatric topics including chronic pain, childhood cancer, childhood obesity, and toilet training. Finally, the book addresses such emerging issues as gender diversity, social justice, cyberbullying, internet gaming disorder, and the impact of COVID-19. Key areas of coverage include Foundations of clinical child psychology, Cognition and clinical child psychology, Testing, assessment, and treatment methods in child psychology, Neurodevelopmental and pediatric disorders in childhood, Assessment and treatments for challenging behaviors in children, Assessment and treatments for psychopathologies in children. The Handbook of Clinical Child Psychology is a must-have resource for researchers, professors, graduate students, clinicians, therapists, and professionals in clinical child and school psychology, child and adolescent psychiatry, social work, public health, pediatrics, as well as special education, developmental psychology, nursing, and all interrelated disciplines. [Consent for Medical Treatment of Trans and Gender Diverse Youth](#) Steph Jowett, 2022-10-06 Examines the law governing consent to medical treatment for trans youth in Australia, England, and Wales. **Diagnosing mental disorders: A middle ground between the DSM-5 and the RDoC** Sarah Sailer, 2022-02-28 Seminar paper from the year 2020 in the subject Philosophy Theoretical Realisation Science Logic Language grade 1-3 Saarland University language English abstract How exactly should we define different mental disorders? How should they be treated? And how should mental disorders be classified? This paper aims to answer the last question and analyze the different classification systems DSM-5 and RDoC. Both systems will be introduced; their characteristics will be discussed, and the emergence will be analyzed. Advantages as well as disadvantages of both positions will be identified and examined with the ultimate goal to give an assessment on which classification system should be used in which way or if there is some kind of consensus to be found. **Causal Explanation in Psychiatry - Beyond Scientism and Scepticism** Annemarie Kalis, Derek Strijbos, Leon de Bruin, Gerrit Glas, 2017-07-12 **Psychiatric Presentations in General Practice** K. S. Jacob, Anju Kuruvilla, 2016-11-30 Medical schools currently use specialist perspectives on psychiatric disorders to train physicians, nurses, and health professionals. This results in a lack of confidence among non-psychiatric health professionals, which reduces their ability to manage common mental health conditions in

primary care and secondary hospitals This book is a practical guide to common mental health conditions encountered in general medical practice

Faith-Based ACT for Christian Clients Joshua J. Knabb, 2022-07-12 Faith Based ACT for Christian Clients balances empirical evidence with theology to give mental health professionals a deep understanding of both the why and how of acceptance and commitment therapy ACT for Christians The new edition includes updated discussions in each chapter more than 20 new and updated exercises and new chapters on couples and trauma The book includes a detailed exploration of the overlap between ACT and the Christian faith case studies and techniques that are explicitly designed to be accessible to both non Christian and Christian including evangelical Christian counselors and therapists Chapters also present the established research on Buddhist influenced mindfulness meditation and newer research on Christian derived meditative and contemplative practices and lay a firm theological foundation through the use of engaging biblical stories and metaphors
