Brave New World and Brave New World Revisited Aldous Huxley, 2005-07-05 The astonishing novel Brave New World originally published in 1932 presents Aldous Huxley's vision of the future of a world utterly transformed Through the most efficient scientific and psychological engineering people are genetically designed to be passive and therefore consistently useful to the ruling class This powerful work of speculative fiction sheds a blazing critical light on the present and is considered to be Huxley's most enduring masterpiece Following Brave New World is the nonfiction work Brave New World Revisited first published in 1958 It is a fascinating work in which Huxley uses his tremendous knowledge of human relations to compare the modern day world with the prophetic fantasy envisioned in Brave New World including threats to humanity such as overpopulation propaganda and chemical persuasion Living Alterities Emily S. Lee, 2014-04-09 Broadening the philosophical conversation about race and racism Living Alterities considers how people s racial embodiment affects their day to day lived experiences the lived experiences of individuals marked by race interacting with and responding to others marked by race and the tensions that arise between different spheres of a single person s identity Drawing on phenomenology and the work of thinkers such as Frantz Fanon Maurice Merleau Ponty and Iris Marion Young the essays address the embodiment experiences of African Americans Muslims Asian Americans Latinas Jews and white Americans The volume s focus on specific situations temporalities and encounters provides important context for understanding how race operates in people s lives in ordinary settings like classrooms dorm rooms borderlands elevators and families The Ethics of Superintelligent Design Paul Golata, 2018-03-07 Artificial intelligence AI permeates Google searches the personal assistants in our smartphones and is all over our newsfeeds Watson's machine learning has already started to revolutionize many important industries including oncology law finance and entertainment The idea that man is about to increase his immediate surroundings with exponential gains in the level of intelligence over the coming generations is based upon a technological revolution and the potential for artificial superintelligence ASI It is within this context that there is a prevailing need for a discussion of its ethical implications As a Christian ethicist Paul Golata believes that the need for this conversation to be informed by Christian principles is imperative ASI is a move toward the proper handling of information However how a society interprets and applies this information is actually more pertinent than the raw amount of information it possesses This important ethical conversation is being led by humanistic thinkers who assume that all of reality is just matter in motion and that mind is nothing more than electrochemical activity in the wetware of human brains The Ethics of Superintelligent Design critically examines and challenges some of the most important trajectories of ASI while upholding the authority and inerrancy of the Bible the supernatural creation account a realistic view of the state of humanity and biblical ethics Fear the Future Matthew Benjamin Cole, 2025-08-21 After centuries of contemplating utopias late nineteenth and early twentieth century writers began to warn of dystopian futures Yet these fears extended beyond the canonical texts of dystopian fiction

into postwar discourses on totalitarianism mass society and technology as well as subsequent political theories of freedom and domination Fear the Future demonstrates the centrality of dystopian thinking to twentieth century political thought showing the pervasiveness of dystopian images themes and anxieties Offering a novel reading of major themes and thinkers Fear the Future explores visions of the future from literary figures such as Yevgeny Zamyatin Aldous Huxley and George Orwell political theorists such as Max Weber Hannah Arendt Herbert Marcuse I rgen Habermas and Michel Foucault and mid century social scientists such as Erich Fromm Max Horkheimer Theodor Adorno David Reisman C Wright Mills and Jacques Ellul It offers a comparative analysis of distinct intellectual and literary traditions including modern utopianism and anti utopianism midcentury social science Frankfurt School critical theory and continental political philosophy With detailed case studies of key thinkers from the Enlightenment to the late twentieth century the book synthesizes secondary literature and research from a range of disciplinary areas including in political theory intellectual history literary studies and utopian studies This wide ranging reconstruction shows that while dystopian thinking has illustrated the dangers of domination and dehumanization it has also illuminated new possibilities for freedom Aldous Huxley Annual Bernfried Nugel, Jerome Meckier. 2023-08-24 Volume 22 opens with two little known Huxley writings A Lunndon Mountaineering Essay 1914 edited by Gerhard Wagner and Huxley's contributions in French at the Paris 1933 congress on the future of the European spirit edited and translated into English by James Sexton This section is followed by a further selection of papers from the Seventh International Aldous Huxley Symposium held at Toulon in October 2021 many of them devoted to a variety of neglected Huxley issues or to the second part of the Huxley Forum entitled Aldous Huxley's Controversial Philosophical Theories An overview of the conference program can be consulted on the Internet via https sites univ tln fr huxley toulon en program The volume closes with further articles on Huxley's concept of the ultimate revolution on an aficionado's life long personal experience with Huxley's works and on Huxley's many sided response to Charles Dickens Paperbound Books in Print Social Work Practice Eileen Gambrill, 2012-12-06 The first textbook to emphasize the importance of critical ,1962 thinking skills to practice this third edition of the classic Social Work Practice retains its unique focus on thinking critically about decisions that social workers make daily Organized around the phases of helping this hands on introduction highlights the decision points that social workers encounter during assessment intervention and evaluation This text together with its companion website provides students with a wealth of hands on exercises for developing and assessing their practice skills Most importantly it helps students enhance client well being by becoming critical thinkers and evidence informed University of California Union Catalog of Monographs Cataloged by the Nine practitioners **Quill & Quire** ,2005 Campuses from 1963 Through 1967: Authors & titles University of California (System).
