Difference N Similarities Between Nsfas N Other Student Loans:

Fees Must Fall Susan Booysen, 2016-10-01 This book explores the student discontent a year after the start of the 2015 South African FeesMustFall revolt. FeesMustFall the student revolt that began in October 2015 was an uprising against lack of access to and financial exclusion from higher education in South Africa. More broadly it radically questioned the socio-political dispensation resulting from the 1994 social pact between big business, the ruling elite and the liberation movement. The 2015 revolt links to national and international youth struggles of the recent past and is informed by black consciousness politics and social movements of the international left. Yet its objectives are more complex than those of earlier struggles. The student movement has challenged the hierarchical top down leadership system of university management and its double speak of professing to act in workers and students interests yet entrenching a regressive system for control and governance. University managements while on one level amenable to change have also co-opted students into their ranks to create co-responsibility for the highly bureaucratised university financial aid that stands in the way of their social revolution. This book maps the contours of student discontent a year after the start of the FeesMustFall revolt. Student voices dissect colonialism, improper compromises by the founders of democratic South Africa, feminism, worker rights and meaningful education. In depth assessments by prominent scholars reflect on the complexities of student activism, its impact on national and university governance and offer provocative analyses of the power of the revolt. The Next Twenty-five Years David Lee Featherman, Marvin Krislov, Martin Hall, 2009-12-18 A must read for anyone who cares about the future of higher education in diverse democracies. Let's Talk About Varsity, 2009 Quality and Inclusion in Education N.V. Varghese, Anjana Mangalagiri, A. Mathew, 2023-05-12 This book calls for an equitable and qualitative access to education for all. It proposes paradigms of educational governance that are based on coalition building between key stakeholders, are grounded in local and cultural contexts, sensitive to the language needs of communities. It underlines the significance of gender sensitive and inclusive approaches that ensure equity for marginalized children and minorities. Based on research based studies, the volume focuses on equity, quality and learning, covering a broad spectrum from school to higher to adult education. It discusses the multiple learner deprivations amongst the marginalized communities and the severe impact of events such as pandemics that exacerbate learner inequities and the recent developments in India under the National Education Policy 2020. It also presents research based country experiences in the Asian India, Bangladesh, China and African Ghana, South Africa contexts, showing how external influences on the changing priorities in policy perspectives cut across developing countries. Compiled in honour of Professor R. Govinda, this volume of insightful articles will be of interest to students and researchers of educational policy and studies, sociology of education, equity and human rights. It will also be useful for decision makers and think tanks.
