

Document Splitting Configuration – Overview

- Document splitting is functionality to **split up line items** for selected dimensions (such as receivable lines by profit center) or to effect a zero balance setting in the document for selected dimensions.
- Using the document splitting functionality, an organization can draw complete **financial statements** for the **selected dimensions** at any time.
- For document splitting to be possible, the individual document items and the documents must be classified. Each classification corresponds to a **rule** in which it is specified how document splitting is to occur and for which line items.
- SAP delivers a set of **standard rules** that should usually prove sufficient. If not, we can **define** your own set of rules and adapt these according to our needs.

Computing Concepts Plus Four Software Tools Tim Duffy, 1992

This revision of Duffy's best selling Rainbow edition has been extensively updated, revised and redesigned to create a highly motivated, personalized introduction to microcomputing. Nine chapters on general computer concepts now open the text. Each chapter opens with a Personal Case to illustrate people making decisions about and using computers in realistic everyday settings. Students know right away why the chapter subject is important. Personal Case Revisited sections in mid chapter update the scenario so that students can see how decisions are developed based on material covered in the chapter to that point. In Your Own Case exercise sets at the ends of chapters enable students to personalize the chapters. Illustrated Timelines give the concepts section an attractive historical perspective. Future Trends boxes provide a cutting edge flavour. Questions for Thought encourage students to reflect upon the role of computers in the world around them. The two colour hands on section of the text provides beginners with introductions to DOS, WordPerfect, Lotus 1 2 3 and dBase III as only Tim Duffy can. Keystroke instruction is more prominent than ever before. Each tool is pre
