Consequences Workplace Safety Is Not Optional:

Consequences! Lee Shelby, 2014-11-09 Lee Shelby's story about a work-related accident has the ability to deeply impact an audience and is ideal for inspirational, motivational, and safety awareness speaking engagements. If you have ever sat through a safety meeting at your work, you will see demonstrations and videos on safety procedure, but Lee will cause you to understand why you should listen and be responsible for yourself and your co-workers. As of today, Lee has helped thousands of people understand the importance of staying focused, eliminating distractions, and not taking shortcuts through his live presentations. Both he and his story are unforgettable. His words are simple, and he tells us things we think we already know, but he tells it in a way that will dramatically change our attitudes toward safety forever. Lee's Story: Triumph Over Tragedy. In August of 1991, Lee Shelby was employed by a utility company in Tennessee as a power lineman and was considered to be a hard worker and good at his job, both by the union and management. On that Monday morning, Lee made a decision that impacted his life and the lives of those around him forever. During a routine job, Lee suffered an occupational injury that nearly cost him his life. Coming in contact with an energized overhead conductor carrying approximately 12,000 volts, Lee had to have both arms amputated below the elbow. Lee spent 23 days in the Intensive Care Burn Unit. This took a tremendous toll on his family and himself. In the blink of an eye, his life changed forever. Lee is a powerful, dynamic speaker with an enthusiasm for life and the challenges it brings. Lee moves audiences through his personal story and his emphasis on taking responsibility for one's own personal safety and the safety of those around you, as he recreates every event of that day to the audience.
