Confronting Political Islam (eGalley) John M. Owen, *Confronting Political Islam* John Malloy Owen, 2016-09-06 Owen is generous rational and balanced He is astute enough to understand the vast real world differences that block the resolution of conflict Publishers Weekly Perspectives on International Relations Henry R. Nau, 2018-01-03 Perspectives on International Relations Power Institutions and Ideas shows students new to the field how theories perspectives of international affairs realism liberalism constructivism identity and critical theory play a decisive role in explaining every day debates about world affairs Why for example do politicians and political scientists disagree about the causes of the ongoing conflict in Syria even though they all have the same facts Or why do policymakers disagree about how to deal with North Korea when they are all equally well informed The new Sixth Edition of this best seller includes updates on Brexit the rise of Donald Trump and other populist leaders and continuing developments for ISIS Syria and Russia The Best of 2015 Gideon Rose, 2015-12-14 Between our classic print magazine and our award winning website we ve published more than 500 articles this year on everything from Vladimir Putin s Russia to the euro crisis to how to deal with the self proclaimed Islamic State We re proud of all our content but every year there are a few pieces that really stand out from the pack So we ve compiled some of our favorites into this anthology for handy reference Our diverse offerings include Kenan Malik s The Failure of Multiculturalism which argues that Europe s integration policies have entrenched divisions rather than erased them and Ira Trivedi s When a Bride to Be Is a Bride to Buy an eye opening piece on India s bride shortage and how it has fueled the trafficking of young women From Greece s financial problems to the Islamic State s statecraft the decline of international studies in the American academy to the stagnation of reforms in China we ve covered it all We hope you enjoy the collection and come back for more in 2016 War on Hate Henry Kopel, 2021-07-12 The UN outlawed genocide in 1948 and the United States launched a war on terror in 2001 yet still today neither genocide nor terrorism shows any sign of abating This book explains why those efforts have fallen short and identifies policies that can prevent such carnage The key is getting the causation analysis right Conventional wisdom emphasizes ancient hatreds poverty and the impact of Western colonialism as drivers of mass violence But far more important is the inciting power of mass ideological hate propaganda this is what activates the drive to commit mass atrocities and creates the multitude of perpetrators needed to conduct a genocide or sustain a terror campaign A secondary causal factor is illiberal dualistic political culture this is the breeding ground for the extremist us vs them ideologies that always precipitate episodes of mass hate incitement A two tiered policy response naturally follows from this analysis in the short term several targeted interventions to curtail outbreaks of such incitement and in the long term support for indigenous agents of liberalization in venues most at risk for ideologically driven violence *Almighty Matters* Nicholas Berry, 2016-01-01 Almighty Matters God s Politics in the Bible explores the underlying politics of the Hebrew and Christian Bibles by uncovering their political theological connection in a single story line The politics of

the New Testament completes the politics of the Old Although it has long been recognized that the Hebrew Bible prominently portrays the political development of God's Chosen People the role of Jesus as a politician the founder of a movement aimed from its beginning at subverting and capturing the Roman Empire has not been recognized Putting the Hebrew and Christian Bibles political approach foremost shows why so much of it is hidden and why until recently Jewish Christian relations have been contrary to God's design

The ^ADark Double Andrei P. Tsygankov,2019-03-01 In *Dark Double* Andrei P Tsygankov focuses on the driving power of values and media in addition to political and economic interests in structuring US Russia relations By analyzing mainstream US newspapers and other media sources Tsygankov identifies five media narratives involving Russia since the Cold War's ends and shows how Americans negative views toward Russia draw from a deep wellspring of suspicion and are further enhanced by a biased media that regularly exploits such negativity Russia's centralization of power and anti American attitudes

Charity after Augustine Jonathan Teubner,2024-12-07 *Charity after Augustine* explores why the Augustinian tradition's attempts to build solidarity in the societies of the Latin West have ended in disaster just as often as they have brought about justice Focusing on the concrete practices of love and charity almsgiving works of mercy good works Teubner demonstrates how religious leaders attempted simultaneously to bind and hold communities together while also in fits and starts to expand and include others in their communities The first part probes how Augustine's thought is put into practice informing a tradition of political action inspired by concepts of love and enacted through practices of charity In a second more expansive part *Charity after*

Augustine turns to the ways in which the Benedictine tradition as received by Gregory the Great and Bernard of Clairvaux transforms this vision and puts it into practice in contexts radically different from those of Augustine's age. At the heart of this book is an attempt to find a non-idealized vision of love that can inform thick relations within a community that are not diluted but are rather strengthened by the incorporation of outsiders.
