## Microsoft® Active Directory® settings

The BlackBerry® Administration Service uses Microsoft® Active Directory® information to authenticate users:

## Active Directory login credentials

User name:

User domain:

User password:

## Active Directory server discovery

After the verification of the Microsoft Active Directory login credentials the install application will perform an automatic discovery of your Global catalog servers. If no servers are located then a list will be presented in this space to manually build your list of Global catalog servers. However, if the automatic discovery succeeds and you want to adjust the list of Global catalog servers then you can do so through the BlackBerry Administration Service.
