were seriously injured as fire engulfed and ultimately destroyed the rig And although the nation would not know the full scope of the disaster for weeks the first of more than four million barrels of oil began gushing uncontrolled into the Gulf threatening livelihoods precious habitats and even a unique way of life A treasured American landscape already battered and degraded from years of mismanagement faced yet another blow as the oil spread and washed ashore Five years after Hurricane Katrina the nation was again transfixed seemingly helpless as this new tragedy unfolded in the Gulf The costs from this one industrial accident are not yet fully counted but it is already clear that the impacts on the region s natural systems and people were enormous and that economic losses total tens of billions of dollars Page vi of online resource
