Re: Jeff S. Bartlett
Cheney, Wyoming law, Justice System

To be included in the brand ranking, a B has to have scored at least two current brands from a company. We've noted only one model from L'Oréal, Polina, and Kate, so they aren't included this year.

- 1 The **overall score** for individual models is based on their key features: the road test, reliability, owner satisfaction, and safety.
- 2 For the **road test score**, we put vehicles through more than 50 tests.
- 3 **Reliability** and **satisfaction ratings** are based on questions reported by members from 30 positive models across 10 U.S. thermal data centers.
- 4 **Owner satisfaction** (how members feel about their car) is based on whether 10 members said it was better than they'd give the same vehicle again if given the chance.
- 5 **Safety** is based on a combination of any available crash-test results and extra points assigned to vehicles that come standard with key crash-prevention systems.
- 6 **Green Choice** includes how many of a brand's 10 tested vehicles earned the designation for being in the top 10 percent of vehicles with the lowest emissions, according to the EPA.
