Topic

1. Suggest a simple question or hypothesis for the students to explore in their investigation.

The earthquake in Haiti destroyed the primary water supply from the river?

The first part of this response is positive although there is a hint that it would be difficult to find, which could be followed in the second part of the response to suggest that the river was not a natural one for the area. The second part of the response is positive about the river and the subsequent river flooding, a mark.

Do not leave things unsimplified. Having spent time with a hypothesis in mind, it is important to simplify it.
