**Debates in History Teaching** Ian Davies, 2017-02-16 Now in its second edition *Debates in History Teaching* remains at the cutting edge of history education. It has been fully updated to take into account the latest developments in policy research and professional practice. With further exploration into the major issues that history teachers encounter in their daily professional lives, it provides fresh guidance for thinking and practice for teachers within the UK and beyond. Written by a range of experts in history education, chapters cover all the key issues needed for clear thinking and excellent professional action. This book will enable you to reach informed judgements and argue your point of view with deeper theoretical knowledge and understanding. *Debates* include: What is happening today in history education? What is the purpose of history teaching? What do history teachers need to know? What are the key trends and issues in international contexts? What is the role of evidence in history teaching and learning? How should you make use of ICT in your lessons? Should moral learning be an aim of history education? How should history learning be assessed? *Debates in History Teaching* remains essential reading for any student or practising teacher engaged in initial training, continuing professional development or Master's level study.

**A Philosophical Inquiry into Subject English and Creative Writing** Oli Belas, 2022-11-18 While engaging with the current political educational climate of England, this book offers a timely contribution to debates around questions of knowledge in relation to education and school level English by drawing together theories of individual and disciplinary knowledge. The book provides a philosophical conception of knowledge as fundamentally embodied at the level of the individual and a matter of cultural form at the level of shared or common knowledge and an analysis of the implications of this for schooled English. The research draws from various related fields including literary criticism, philosophy of knowledge and of symbolic form and phenomenology. The book rethinks general notions of knowledge and lays out the problems that exist within knowledge and language systems in education, especially secondary and university levels. This highly relevant and informative book offers an insightful resource for academics, researchers and postgraduate students in the fields of education studies, educational policy and politics, philosophy of education and literature studies. **Musical Leadership** Laura Hamer, Helen Julia Minors, 2024-08-13 *The Routledge Companion to Women and Musical*

Leadership The Nineteenth Century and Beyond provides a comprehensive exploration of women's participation in musical leadership from the nineteenth century to the present. Global in scope with contributors from over thirty countries, this book reveals the wide range of ways in which women have taken leadership roles across musical genres and contexts, uncovers new histories, and considers the challenges that women continue to face. The volume addresses timely issues in the era of movements such as MeToo, digital feminisms, and the resurgent global feminist movements. Its multidisciplinary chapters represent a wide range of methodologies, with historical musicology, models drawn from ethnomusicology, analysis, philosophy, cultural studies, and practice research all informing the book. Including almost fifty chapters written by both researchers and practitioners in the field, it covers themes including Historical Perspectives, Conductors and Impresarios, Women's Practices in Music Education, Performance and the Music Industries, Faith and Spirituality, Worship and Sacred Musical Practices, Advocacy, Collectives, and Grass Roots Activism. The Routledge Companion to Women and Musical Leadership: The Nineteenth Century and Beyond draws together both new perspectives from early career researchers and contributions from established world-leading scholars. It promotes academic/practitioner dialogue by bringing contributions from both fields together, represents alternative models of women in musical leadership, celebrates the work done by women leaders, and shows how women challenge accepted notions of gendered roles. Offering a comprehensive overview of the varied forms of women's musical leadership, this volume is a vital resource for all scholars of women in music, as well as professionals in the music industries and music education today.

*40 Ways to Diversify the History Curriculum* Elena Stevens, 2022-07-14. In writing this book, Elena Stevens' aim is to respond to calls for a more diverse, decolonised curriculum, calls which have become more insistent following the reinvigoration of the Black Lives Matter movement, the MeToo movement, and other landmark events. Highlighting the lived experiences of women, the working classes, and BAME and LGBTQ communities in particular, *40 Ways to Diversify the History Curriculum* draws upon a wide range of personal stories to exemplify significant historical moments and shed new light on topics that have traditionally been taught through narrower lenses. The book serves as a resource bank for teachers wishing to enliven and diversify history lessons at Key Stages 2, 3, GCSE, A level, and beyond. Elena helpfully opens with a discussion of the theoretical/historiographical developments that lay behind calls to diversify the curriculum, and to accompany each of the 40 historical case studies, she provides ideas and activities for translating the case studies into lesson plans and enquiries. Furthermore, Elena also guides teachers in shaping new enquiries from scratch. Suitable for teachers of secondary school and Key Stage 2 history.
